In The Country Of Last Things Paul Auster:

In the Country of Last Things Paul Auster, 1988-05-02 From New York Times bestselling author Paul Auster a dystopian post apocalyptic novel reminiscent in many ways of Orwell's 1984 The Atlanta Journal Constitution Powerful original imaginative and handled with artistry One of the better modern attempts at describing hell The Washington Post Book World In a distant and unsettling future the masses are homeless theft is so rampant it is no longer a crime and death by arranging either a suicide or an assassination is the only way out It is in these circumstances that Anna Blume begins her search for her brother a one time journalist who may or may not still be alive in an unnamed city whose destitute inhabitants dig through garbage and elusive government provides nothing but corruption In her struggle to survive Anna becomes a scavenger of objects from the past to sell for food and shelter But she will also find friendship and even love in this devastated world In the Country of Last Things is a tour de force that reaffirms Paul Auster's stature as one of the most accomplished and singular talents of his generation *In the Country of Last Things* Paul Auster, 1992 In this novel Paul Auster offers a haunting picture of a devastated world a futuristic world but one which may be seen to shadow our own Auster has also written The New York Trilogy **In the Country of Last Things** Paul Auster, 1988-01 **The World that is the Book** Aliko Varvogli, 2001-01-01 The World that is the Book offers an in depth analysis of Paul Auster's fiction It explores the rich literary and cultural sources that Auster taps into in order to create compelling stories that investigate the nature of language the workings of chance and the individual's complex relations with the world at large Whereas most Auster criticism has concentrated on readings of individual novels this book emphasizes the continuity in Auster's writing by discussing throughout the philosophical underpinnings that lead the author to question the boundaries separating the fictional from the factual and the real from the imagined Orientation and Disorientation in Paul Auster's In the Country of Last Things and in The New York Trilogy Delphine Bénézet, Surviving Entropy in "In the Country of Last Things" (1987) by Paul Auster Daniella Marie-Laurence Govindin, 2005 Postmodern Counternarratives Christopher Donovan, 2005-02-10 This book provides a wide ranging discussion of realism postmodernism literary theory and popular fiction before focusing on the careers of four prominent novelists Despite wildly contrasting ambitions and agendas all four grow progressively more sympathetic to the expectations of a mainstream literary audience noting the increasingly neglected yet archetypal need for strong explanatory narrative even while remaining wary of its limitations presumptions and potential abuses Exploring novels that manage to bridge the gap between accessible storytelling and literary theory this book shows how contemporary authors reconcile values of postmodern literary experimentation and traditional realism **Collected Novels Volume 1** Paul Auster, 2014-04-24 After years spent as a struggling translator and poet Paul Auster published his first works of fiction in the mid 1980s City of Glass Ghosts and The Locked Room three brilliant variations on the classic detective story which published together as The New York Trilogy became the international hit that established his reputation Introducing themes that have

run throughout his work ever since Auster managed to combine formal experimentation with classic storytelling and to inform his exploration of America and the self with a distinctly European sensibility Included here in the first volume of his collected novels alongside his seminal debut are *In the Country of Last Things* a dark dystopian vision of the future and *Moon Palace* a sweeping multi generation novel that begins in the summer that man first walked on the moon All told in his characteristic clean prose style these three novels form the first chapter in an ongoing career that has marked Auster out as one of the most original relevant and enduring novelists at work today

Borderlands and Liminal Subjects Jessica Elbert Decker, Dylan Winchcock, 2017-11-15 Borders are essentially imaginary structures but their effects are very real This volume explores both geopolitical and conceptual borders through an interdisciplinary lens bridging the disciplines of philosophy and literature With contributions from scholars around the world this collection closely examines the concepts of race nationality gender and sexuality in order to reveal the paradoxical ambiguities inherent in these seemingly solid binary oppositions while critiquing structures of power that produce and police these borders As a political paradigm liminality may be embraced by marginal subjects and communities further blurring the boundaries between oppressive distinctions and categories

Minimalism and Affect in American Literature, 1970-2020 Oliver Haslam, 2024-09-05 Theorizes the development of a minimalist mode in American fiction since 1970 frequently seen to interrogate US postmodernity *Minimalism and Affect in American Literature 1970 2020* responds to existing studies of literary minimalism by pursuing three original and interrelated objectives It provides a more inclusive and precise definition of minimalism that enables further inquiry into the mode It also exposes the presence of minimalism beyond critical demarcations that attempt to limit the aesthetic to a particular school medium movement form or decade Finally it argues that writers of American literary minimalism are uniquely privileged in their ability to formalize precarity and threatening cultural currents into the fragile construct that is ordinary life Building upon theories of affect and the everyday *Minimalism and Affect in American Literature 1970 2020* analyses minimalist aesthetics within the works of canonical minimalists alongside writers more frequently associated with other movements Through readings of Ernest Hemingway Joan Didion Raymond Carver Paul Auster and Don DeLillo among others and cultural phenomena ranging from sedation to telephony this book exposes the persistence and political importance of minimalism within American literature from the 20th century into the 21st
