### COURSE DESCRIPTION

Missiology is the science of mission. It combines intercultural studies, anthropology, history, cross-cultural communications and theology. This introductory overview of the church's global mission will include a look at biblical motivations, historical background and current strategies.

This course does not seek to transform everyone into a global missionary. It will, however, seek to motivate everyone to be a mobilizer for the cause of world evangelism.

**In terms of specific course goals, this course aims to equip students to:**

- Outline a biblical rationale and the theological imperative for world evangelization
- Identify and describe some key movements and individuals in the history of the global expansion of the Christian movement including those within one's own denomination
- Explain the task yet to be accomplished and describe important trends and selected strategies being used in contemporary world mission outreach
- List basic components necessary for local congregations to be involved in the missionary task of the Church.

**In terms of ordination requirements in the Church of the Nazarene, this course should help produce in students the following outcomes:**

1. Ability to understand and articulate the biblical, historical and theological bases for Christian mission
2. Ability to describe how the church implemented its mission in the various periods of Church History
