 management of change a book about the death of the banking industry and the explosion of opportunities within a new
 financial services industry It argues that it is an impossible task to manage risk without the technological infrastructure and
 the technology tools It is a relatively straightforward exercise to determine functions or action of risk but it is most difficult
 to quantitatively measure and forecast risk without the tools Here the use of technology in data processing and production
 operation both in banks and other industries is examined **Progressive Farmer** ,1993
