Affordable Hybrid Work Schedule For Dads In America:

Presidential Campaigns And American Self Images Arthur H Miller, Bruce E Gronbeck, 2019-06-26 This volume explores a central political paradox why American scholars journalists and citizens periodically question the viability of their presidential electoral system and yet believe that presidential elections are our best hope for tomorrow The book argues that the key to understanding this paradox lies in the concept of self image exploring relationships between campaign activities and political culture After presenting an introduction to the history of presidential campaigning and a theory of political image the book arranges essays in three parts images centered on candidates mass media and the public A final essay assesses explanations of the contrasts between the 1988 and 1992 elections and suggests tomorrow s research agenda
