Current development on the job market** Mohamed Abdelhady,2021-02-08 Master s Thesis from the year 2020 in the subject Sociology Work Education Organisation grade 1 3 University of Applied Sciences Fulda language English abstract This research paper is a journey into the digital nomads world in Dahab Egypt and aims to reveal their imaginations and

ideologies identify their attributes and analyze their community's enhancement to their professional improvement. Data were gathered during a three-month field study relying on an online survey including a questionnaire, six interviews, and a netnography research method. In a world where technology is increasingly intertwined with everyday life and work, the traditional profession is fading into the background while the digital age is unleashing unlimited opportunities and changes in our working, playing, and living ways. Thus, more people adopt the digital nomad lifestyle to reach their personal and professional goals, heading to various innovation hubs worldwide, especially in Asia. Consequently, it has led to increased digital nomadism. Phenomenon studies, however, none of them addressed the phenomena in the Middle Eastern countries as innovation hubs. Hence, given that Egypt is one of the most capable digital nomads' host countries in the Middle East with excellent weather and fascinating history, a reasonable cost of living, and developed sharing economy sectors, especially Dahab city, it is worthy of examining the phenomenon in Dahab, Egypt, and tracking its existence. **Contractor**, 1918
