Self-Studies of Teacher Education Practice Online Mary F. Rice, Ramona Maile Cutri, Juanjo Mena, 2024-05-20 This edited volume explores the emotional work of being an online teacher educator The chapter authors discuss the intense work involved in planning teaching and navigating intuitional contexts in order to build a relationship between online teaching and the Self Study of Teacher Educator Practice S STEP methodology Additionally the authors of the chapters in the book used the S STEP methodology to move their practices and their teacher educator identities beyond emergency crisis uses of online teaching common during campus building closures Each chapter offers different ways that S STEP methodology can be used to sustain oneself as an online teacher educator Although there are specific strategies and practices this is not a how to book for online teacher educating it is an exploration of online teachers and groups of online teachers supporting themselves and each other by studying and learning from their practices Designing Communities Wolff-Michael Roth, 2012-12-06 The study described in this book arose in the context of a three year collective effort to bring about change in science teaching at Mountain Elementary School 1 This opportunity emerged after I contacted the school with the idea to help teachers implement student centered science teaching At the same time the teachers collectively had come to realize that their science teaching was not as exciting to children as it could be They had recognized their own teaching as textbook based with little use of the hands on approaches prescribed by the provincial curriculum At this point the teachers and I decided that a joint project would serve our mutual goals they wanted assistance in changing from textbook based approaches to student centered activities I wanted to collect data on learning in student centered knowledge producing classroom communities I brought to this school my new understandings about classroom communities from several earlier studies conducted in a private high school e g Roth Roth Roychoudhury 1992 I wanted to help teachers create science learning environments in which children took charge of their learning where children learned from more competent others by participating with them in ongoing activities and teachers were responsible for setting up and maintaining a classroom community rather than for dissem inating information After I had completed the data collection for the present study I
