Handbook of Research on Revisioning and Reconstructing Higher Education After Global Crises Hai-Jew, Shalin, 2023-01-20 Global challenges in a chaotic context are ever in play, emerging and receding in time. At the present moment, the global challenges of the COVID-19 pandemic have resulted in several years of mass-scale challenges and lost learning and socialization from K-12 to higher education for many. The pandemic has been a high consequence and continuing event. Universities and colleges have been under unprecedented budgetary strain. Despite all the immense and irreparable human losses, humanity is moving forward with lessons from the past several years. The Handbook of Research on Revisioning and Reconstructing Higher Education After Global Crises explores how global higher education will recover from the global pandemic at the micro, meso, and macro levels and how they will re-establish their relevance for teaching and learning, research, and innovation and social contributions. Covering topics such as campus life, online library services, and Indigenous students, this major reference work is an essential resource for educators and administrators of higher education, government officials, students of higher education, librarians, researchers, and academicians.
