Lead with Strategy: Nonprofit Leadership & AI-Driven Growth Strategies Julian Mateo Reyes, 2025-09-05 Your nonprofit's mission is powerful. But passion alone is not a strategy for growth. Nonprofit leaders are constantly asked to do more with less. You face the daily pressure of fundraising, managing operations, and serving your community. This leaves very little time for the strategic planning that is required to build a sustainable and high impact organization. *Lead with Strategy* is a practical playbook for the modern nonprofit leader. It shows you how to combine your passion with a powerful growth plan. This book demystifies Artificial Intelligence and provides a simple guide to using AI tools to automate tasks, increase donations, and amplify your mission. This book will give you a clear plan to develop a powerful strategic plan that aligns your team and focuses your efforts. Use simple AI tools to improve your grant writing and donor communication. Automate routine administrative work so your team can focus on the mission. Analyze data to make smarter decisions and prove your organization's impact. Lead your team with confidence through the adoption of new technology. Stop letting a limited budget restrict your organization's potential. This book gives you the tools to lead your nonprofit with the same strategic power used by successful corporations. It is time to build a future where your organization can make its biggest impact yet. To learn how to grow your nonprofit, click the buy button now.

Teach Like a Human David J. Mulder, 2025-09-18 Are the machines taking over? Artificial intelligence suddenly seems to be everywhere, including in the world of education. With new AI-powered tools popping up every day, it's no wonder that educators might feel overwhelmed. How can we navigate this strange new world of AI without losing our humanity or our sense of humor? Blending thoughtful theology, practical wisdom, and a deep love for teaching, this book invites educators to reflect on big questions: What does it mean to be a real human in an age of artificial intelligence? What tools should we adopt, and which ones should we avoid, and how can we decide? How do we stay grounded in the gospel story while adapting to emerging technologies? Rather than offering easy answers or alarmist warnings, let's consider an approach that is curious and courageous: developing a hopeful vision for education that forms both minds and hearts. Standing on the truth of Scripture and keeping a finger on the tech pulse, this book helps Christian educators practice thinking faithfully, acting ethically, and teaching joyfully, even when algorithms are everywhere. Teaching Christianly with technology isn't about keeping up with the latest tools and trends; it's about being the humans God created us to be.

AI for Families Shannon Kimberly Edwards, 2025-10-10 AI is already shaping how children learn, play, and see the world, leaving many families feeling overwhelmed and uncertain about navigating this new digital reality. *AI for Families* provides the guidance families need to approach AI innovation with confidence and on their own terms. This isn't a book about fearing AI or fighting against it. It's a guide providing practical support for the questions families are already wrestling with at home. From strengthening app privacy settings to helping kids think critically about AI-generated responses, *AI for Families* offers clear explanations, historical context, and actionable solutions that put families in control of decisions based on

their individual values beliefs and needs Whether navigating a teenager grappling with AI essay support and academic integrity a middle schooler experimenting with homework help or families advocating for thoughtful school policies AI for Families is a roadmap for working through all of these decisions together Most importantly AI for Families is about embracing the deeply human traits of curiosity creativity empathy and connection that will serve children well into the future The goal isn't competing with AI but raising kids who can work alongside new technology while owning and celebrating what makes us uniquely human This might just be the moment where families get to come together celebrate our collective humanity and take ownership of the technology that can guide us toward greater discoveries and a better world We just need to start talking and claiming this future as our own
