students freelancers and those with short attention spans      The Power of Logos William L. Haig, Laurel Harper, 1997-05-14  
This book brings together both design and marketing expertise to explain how to create a truly effective company logo. It demonstrates and explains how to integrate concepts such as credibility, familiarity, and the essential spirit of a business into a logo design. Written for both the designer and the company manager, it defines the meaning of credibility and then demonstrates the kinds of qualities that convey credibility in a company logo. You need this book if you are a designer attempting to understand marketing and business concepts, how to translate credibility into design, the defining qualities of a business, what a client is saying, the many applications of a logo, a manager attempting to understand how to approach the task of creating a logo, the designer's perspective, what message a company logo should convey, how design can be used to symbolize expertise, how to communicate clearly with a designer.

**Logo Design Workbook** Sean Adams, Noreen Morioka, 2006-03-01  
Logo Design Workbook focuses on creating powerful logo designs and answers the question: What makes a logo work? In the first half of this book, authors Sean Adams and Noreen Morioka walk readers step by step through the entire logo development process. Topics include developing a concept that communicates the right message and is appropriate for both the client and the market; defining how the client's long-term goals might affect the look and needs of the mark; choosing colors and typefaces; avoiding common mistakes; and deciphering why some logos are successful whereas others are not. The second half of the book comprises in-depth case studies on logos designed for various industries. Each case study explores the design brief, the relationship with the client, the time frame, and the results.
