EcERS E The Four Curricular Subscales Extension To The Early Childhood Environment Rating Scale EcERS Fourth Edition With Planning Notes:

A Guide to Analyzing and Interpreting ECERS-3 Data Richard M. Clifford, Noreen Yazejian, Wonkyung Jang, Dari Jigjidsuren, 2021 Early childhood is a crucial stage in a child's life and aspects of the environment in the physical, social, emotional, cognitive, and health and safety domains all play important roles in shaping children's development during these early years. Having a valid and reliable measure of the quality of these aspects of children's care settings is critical. The Early Childhood Environment Rating Scale (ECERS-3) is the leading research-based instrument for examining these influential global factors that directly impact children in early childhood environments. In this new guide, readers will find an in-depth description of both the conceptual model underlying the ECERS-3 and innovative ways of analyzing data for a fuller understanding of what can be done with the scale and why it is integral to the evaluation of early care and education. The authors analyze a large database of classroom observations to help ECERS-3 users better understand, interpret, and utilize their own findings. Readers will also see how components of their ECERS-3 data relate to one another within and across subscales and within the scale as a whole. *A Guide to Analyzing and Interpreting ECERS-3 Data* will assist program directors, agency administrators, preK-K teaching coaches, mentors, school principals, researchers, and others who use the ECERS-3 to more successfully document, interpret, and analyze the quality of essential influential factors in an early learning setting. This resource will help guide program improvement initiatives with insight into what is needed for children's development and learning. **Book Features:** Provides a framework for thinking about how early childhood care and education learning environments fit into the larger picture of influences on children's development. Presents a theory of change that combines understanding how children learn and develop with how early education and care affect long-term outcomes. Analyzes what ECERS-3 data looks like for a large sample of classrooms and by different child and teacher characteristics. *ECERS-E with Planning Notes* Kathy Sylva, Iram Siraj, Brenda Taggart, 2010-11-22 ECERS E is designed to be used with the Early Childhood Rating Scale Revised (ECERS-R), an internationally recognized measure of quality in education and care written by Thelma Harms, Richard M. Clifford, and Debby Cryer. It not only complements the ECERS-R but extends the scales to provide additional insights into important aspects of literacy, mathematics, science, and environment, as well as practices related to issues of diversity. Given the current focus on emerging literacy and numeracy skills, the ECERS E provides unique guidance on the kinds of environments that enhance learning in preschool settings. The curriculum domains within the scales bear important relationships to children's age 3-5 cognitive and social-behavioral developmental outcomes. Using the ECERS E alongside the ECERS R gives users a more complete picture of what a high-quality early childhood education program can look like. It can be used by program directors, teaching staff, agency staff, and in teacher training programs. **Convenient organization:** Literacy Items, Print in the environment, Book and literacy areas, Adults reading with children, Sounds in words.
