Writing and Editing for Digital Media Brian Carroll, 2025-12-12 An essential guide to writing and editing for digital media this sixth edition responds to the mainstreaming of genAI Generative AI and LLMs Large Language Models among many other changes in the best practices of digital storytelling Carroll explains and demonstrates how to effectively write for digital spaces and places that typically abound with graphical content multimedia and hypertextual interactive elements He also combines hands on practical exercises with information on key topics such as misinformation and disinformation and the proliferation of artificial intelligence This new edition specifically explores the ethical questions raised by AI as well as the new possibilities it presents Each chapter features lessons and exercises through which students can build a solid understanding of the ways that digital communication provides opportunities for dynamic storytelling and multi directional communication It also speaks to writers editors public relations practitioners and social media managers and marketers Updated with contemporary examples and new pedagogy throughout this is the ideal handbook for students seeking careers in digital media particularly in content development and digital storytelling It is an essential text for students of media communication public relations marketing and journalism who are looking to develop their writing and editing skills for these ever evolving fields and professions This book also has accompanying Support Material that offers additional weekly activities and assignments providing students additional opportunity to put theory into practice

Adolescent Use of New Media and Internet Technologies Gordon P. D.

Ingram,2023-03-31 This book engages with contemporary and often polarizing debates surrounding the risks of adolescent use of digital media and internet technologies By drawing on multiple research studies the text synthesizes current understandings of the impacts of social network use online gaming pornography and phenomena including cyberbullying cyberstalking and internet addiction to develop recommendations for the effective identification of at risk youth as well as strategies for informed communication about online risks and opportunities It shows how media discussion of risks to children and teenagers from new technology is highly emotive and often exaggerated rooted in the moral panic surrounding new cultural practices that young people engage in but which adults do not understand Online risks are thus conceptualized as centering on three areas specific to adolescence which have undergone radical changes due to new internet technology These include young people s identity the types of content that are accessed and social relationships The author shows how these matters stem from the potential of new technology to establish new interpersonal connections emphasizing how it brings opportunities as much as risks As such he provides a uniquely balanced discussion of potential dangers while also emphasizing the opportunities for social academic and personal growth which new technologies afford young people It will be indispensable for researchers and clinicians interested in assessing levels of online risk as well as scholars and educators with interests in cyberpsychology social psychology cyber culture social aspects of computing and media and adolescent development
