Murnane,2003-09-04 About 27.5 million Americans nearly 24 percent of the labor force earn less than \$8.70 an hour not enough to keep a family of four out of poverty even working full time year round Job ladders for these workers have been dismantled limiting their ability to get ahead in

today's labor market Low Wage America is the most extensive study to date of how the choices employers make in response to economic globalization industry deregulation and advances in information technology affect the lives of tens of millions of workers at the bottom of the wage distribution Based on data from hundreds of establishments in twenty five industries including manufacturing telecommunications hospitality and health care the case studies document how firms responses to economic restructuring often results in harsh working conditions reduced benefits and fewer opportunities for advancement For instance increased pressure for profits in newly consolidated hotel chains has led to cost cutting strategies such as requiring maids to increase the number of rooms they clean by 50 percent Technological changes in the organization of call centers the ultimate disposable workplace have led to monitoring of operators work performance and eroded job ladders Other chapters show how the temporary staffing industry has provided paths to better work for some but to dead end jobs for many others how new technology has reorganized work in the back offices of banks raising skill requirements for workers and how increased competition from abroad has forced U S manufacturers to cut costs by reducing wages and speeding production Although employers responses to economic pressures have had a generally negative effect on frontline workers some employers manage to resist this trend and still compete successfully The benefits to workers of multi employer training consortia and the continuing relevance of unions offer important clues about what public policy can do to support the job prospects of this vast but largely overlooked segment of the American workforce Low Wage America challenges us to a national self examination about the nature of low wage work in this country and asks whether we are willing to tolerate the profound social and economic consequences entailed by these jobs A Volume in the Russell Sage Foundation Case Studies of Job Quality in Advanced Economies **The Balance Sheet** ,1928 **Vocational Education Magazine** ,1922 *Motor Age* ,1920 *Alaska* ,1983 *Entrepreneur Secrets for Entrepreneurs: How To Create Specific Strategies To Build Your List, Make Offers And Connect With Your Best Buyers* John North,2021-05-26 The ultimate guide for entrepreneurs who want to discover simple and effective ways to get started that doesn't cost a fortune Find out the best steps for each strategy and what is the most important areas you should focus on to connect with your best buyers If you're looking to succeed with quick start concepts for online entrepreneurs this brand new book by John North reveals how startup entrepreneurs or someone looking to reboot their online business can understand how to create specific strategies to build their list make offers and connect with their best buyers Discover how to fast track your idea to startup without risking large amounts of capital investment Learn how to create your own marketing strategies to quickly test your market and grow your idea with our 5 step system In this Amazing Book you will discover The perfect mindset for startup entrepreneurs or someone looking for reboot their online business at this point that would virtually guarantee their success The big opportunities in quick start concepts for online entrepreneurs that many beginner or even experienced entrepreneurs might be missing The 1 mistake entrepreneurs make in the area of quick start concepts The things that entrepreneurs are most likely to overpay for and how
