*Practical Linux System Administration* Kenneth Hess, 2023-04-18  
This essential guide covers all aspects of Linux system administration from user maintenance, backups, filesystem housekeeping, storage management and network setup to hardware and software troubleshooting and some application management. It's both a practical daily reference manual for sysadmins and IT pros and a handy study guide for those taking Linux certification exams. You'll turn to it frequently not only because of the sheer volume of valuable information it provides but because of the real world examples within and the clear, useful way the information is presented. With this book at your side, you'll be able to install Linux and perform initial setup duties such as connecting to a network, navigating the Linux filesystem via the command line, installing software from repositories and source and satisfy dependencies, set permissions on files and directories, create, modify and remove user accounts, set up networking, format and mount filesystems, perform basic troubleshooting on hardware and software, create and manage logical volumes, work with SELinux, manage a firewall and iptables, shut down, reboot and recover a system, perform backups and restores.  
[Science and Global Challenges of the 21st Century - Science and Technology](#) Alvaro Rocha, Ekaterina Isaeva, 2021-10-13  
This book comprises the proceedings of the International Perm Forum Science and Global Challenges of the 21st Century held on October 18th-23rd 2021 at Perm State University, Perm, Russia. Global challenges which determine the main trends in the development of social and economic life in the XXI century require the integration of specialists in various fields of knowledge. That is why the main principle of this edition is interdisciplinarity: the formation of end-to-end innovation chains including fundamental and applied research and the wide application of smart innovations, networks and information technologies. The authors seek to find synergy between technologies and such fields as computer science, geosciences, biology, linguistics, social studies, historical studies and economics. The book is of interest to researchers seeking nontrivial solutions at the interface of sciences, digital humanities.
