Youth and Employment in Sub-Saharan Africa Hiroyuki Hino,Gustav Ranis,2014-06-05 It is widely acknowledged that youth unemployment is one of the most critical challenges facing countries in Sub Saharan Africa This volume brings together an eminent group of international scholars to analyse the extent and complex nature of this joblessness and offer a set of evidence based policy choices that could contribute to solving the problem in the short and long run Part I reviews the existing literature on youth unemployment and underemployment in Sub Saharan Africa from microeconomic and macroeconomic perspectives while Part II goes on to present detailed country

studies of Ethiopia Ghana Kenya and South Africa These studies offer a deep understanding of the situation on the ground and consider country specific solutions Throughout the book it is argued that the standard ILO definition of unemployment is too narrow to correctly portray employment situations in Sub Saharan Africa Several alternative measures of unemployment are presented which show that joblessness is far more pervasive than commonly assumed in the literature This volume will be of interest to academics and policy makers involved in African development Youth Employment in Sub-Saharan Africa Deon Filmer,Louise Fox,2014-01-24 The series is sponsored by the Agence Francaise de Developpement and the World Bank

Effective Technology for Gender Equity in Business and Organizations Darwish, Dina,2024-08-23 Despite decades of activism and efforts in society and government women still face significant barriers to gender equality and economic empowerment in the business world However advancements in modern technology may present an opportunity to upend the systems that support inequality The industrial revolution may have transformed industries but thus far it has failed to eradicate longstanding inequalities *Effective Technology for Gender Equity in Business and Organizations* addresses this pressing issue by offering a collection of original research aimed at professionals policymakers and knowledge management experts and examines how new technology can be integrated into various levels of organizations to help continue breaking down barriers and advancing gender equity This book brings together relevant theoretical frameworks and the latest empirical research findings in gender equity with the aid of modern technology It targets professionals seeking to enhance their understanding of modern technology s strategic role in contemporary society including its application at the global economy network team building and information system levels By offering insights into the recent potential to reduce the gender gap and empower women with these advancements this book is a valuable resource for those working in healthcare business organizations information sciences and more Illinois Rural Youth Survey Nancy Armstrong,1993 **The effect of land inheritance on youth employment and migration decisions: Evidence from rural Ethiopia** Kosec, Katrina,Ghebru, Hosaena,Holtemeyer, Brian,Mueller, Valerie,Schmidt, Emily,2017-03-28 In Ethiopia there are two binding forces push and pull that deserve attention when it comes to youth occupational and spatial mobility choices and the national land use and transfer policy On the one hand the fact that the land rental market in Ethiopia is supply constrained due to market and policy distortions marginalizes youth and serves as a push factor leading them to look elsewhere for a livelihood strategy On the other hand the regulatory conditions and restrictions attached to land use and inheritance rights may serve as a pull factor and force youth to be tied to the rural and or farming sector Our study thus aims to explore how youth land access both inheritance and market based affects their migration and employment decisions We explore this question in the context of rural Ethiopia using panel data from 2010 and 2014 We find that larger expected land inheritances significantly lower the likelihood of long distance permanent migration and of permanent migration to urban areas during this time Inheriting more land is also associated with a significantly higher likelihood of employment in agriculture and a lower

likelihood of employment in the nonagricultural sector Conversely the decision to attend school is unaffected These results appear to be most heavily driven by males and by the older half of our youth sample We also find several mediating factors matter Land inheritance plays a much more pronounced role in predicting rural to urban permanent migration and nonagricultural sector employment in areas with less vibrant land markets and in relatively remote areas those far from major urban centers Overall the results reaffirm the notion that push factors dominate pull factors in dictating occupational and migration decisions in Ethiopia and highlight youth preferences to use migration or non agricultural employment as a last resort after exhausting other means of accessing land such as temporary land rental
