**The Keys to Being a Great Leader** Christopher Shea, 2021-07-26 What makes a great leader? What are the traits of leadership? How can you become a leader? These are some of the questions that are answered in this book. The author, Chris Shea, has multi-decade experience as a leader serving in non-profit and government agencies in administrator and C-level executive positions. In this book, he shares the traits that a leader should have and how they come to possess those traits. In essence, a leader is good at seeing the potential in people and pulling out the best in them. There's not one cookie-cutter idea of leadership, and people with different personalities can be exceptional leaders. This book is not just for business leaders but also for those who are or want to be leaders in their community or religious congregation.

**The Truth about Transformation** Kevin Novak, 2023-07-22 Any organization that seeks transformation desires to take advantage of new opportunities and growth. Most organizations turn to technology as the major driver of change. But technology is an enabler, not a silver bullet. Mistaking technology for transformation will lead an organization to failure. True transformative change requires an understanding of the human factors at play: how conscious and subconscious behaviors can derail any plan and how society is influencing your organization. Change is the only constant. An evolving reality is emerging, one that will fundamentally change who we are, how we work, and how organizations will be relevant today and in the future. The truth about transformation is not what you may think. This guide to organizational transformation will surprise, confound, provoke, and challenge every ingrained belief. The future is out there, and the truth about transformation will change how you lead.
