Transforming Academic Libraries Rajesh Singh, Shiva Kanaujia Sukula, 2025-07-25

The book comprises the proceedings of the International Conference on Academic Libraries ICAL 2023 in the context of developing a vision for the next generation of libraries which will contribute to nation building and give a competitive edge to the country in becoming a knowledge economy. The book provides a quality reading and exchange of ideas to all stakeholders to deliberate, dwell, and brainstorm upon the diverse and enormous role that academic libraries may play in enhancing the higher education landscape in developed and developing countries with particular reference to India by 2030. The book includes literature and opportunities to identify the strengths and gaps in the academic library system and to suggest new management models, mechanisms, policies, and national and international programs for reshaping academic libraries into next-generation libraries for higher education.

Artificial Intelligence Literacy in Higher Education Imre

Fekete, 2025-07-08. This book explores the concept of artificial intelligence (AI) literacy within higher education, addressing both instructors and students' preparedness to engage with AI technologies responsibly and effectively. By synthesising existing frameworks and empirical studies alongside presenting two original research studies, the book bridges theoretical foundations with practical applications tailored for modern educational contexts. Practical recommendations include methods to develop AI literacy skills focusing on ethical awareness, technological competence, and the potential for AI to enhance teaching and learning processes. Aimed at higher education instructors, stakeholders, and students, the book offers actionable insights and tools for fostering informed and critical engagement with AI, aligned with lifelong learning goals and professional development needs.
