"Free AI Tools for Teachers 2025" Deepak D, 2025-09-18. Teaching has always been about balance: balancing lessons, grading, parent communication, and the unique needs of every student. However, in 2025, maintaining that balance is more challenging than ever. Teachers are stretched thin, and the demands of modern classrooms can feel overwhelming. That's where artificial intelligence (AI) comes in. But let me be clear: this book isn't about replacing teachers with robots or adding more technology headaches to your plate. It's about introducing you to free, easy-to-use AI tools that can reduce your workload, spark creativity, and free up time for what matters: connecting with your students. When I started researching AI in education, I was amazed by how many powerful tools were available at no cost. Teachers were using them to draft lesson plans in minutes, generate practice quizzes, provide personalised feedback, and even keep their classrooms more organised. The more I explored, the clearer it became: every teacher deserves access to these tools, and most importantly, guidance on how to use them effectively.

Journal of Education, 1893 International Journal of Religious Education, 1924 A Writer's Reference with Writing about Literature Diana Hacker, Nancy Sommers, 2024-10-01. Your college writing will be one way you put your ideas and your self out into the world. A Writer's Reference helps you strengthen your skills for that important work. It helps you develop a range of literacies: writing, reading, thinking, collaborating, using information, and working responsibly with AI. Acknowledging that generative AI tools are part of many writers' processes, A Writer's Reference teaches concrete, flexible strategies for applying your human intelligence to artificial intelligence. See C1a and the AI tips throughout. It helps writers to see AI not as a substitute but a starting point because if you've heard the expression "you do you know that AI simply can't do you," Not authentically. It seems magical, but in fact, it understands nothing, can't think, and won't ever replace the human.
