**Designing Instruction with Generative AI** Brent A. Anders, 2025-09-16 Designing Instruction with Generative AI offers a novel set of tools and strategies for leveraging generative AI to create engaging and personalized learning experiences. While instructional designers are a tremendous asset to higher education, not all colleges or universities have the robust staff needed to support all instructors on staff or large student populations. Drawing on a wealth of research, professional experience, and strategic insights, this book equips new and seasoned teaching faculty and trainers with step-by-step directions on how freely accessible artificial intelligence software can assist with all aspects of the course creation and instruction process and cater to the needs of diverse learners. Each chapter offers forward thinking and empirically validated ways to help faculty create and improve instructional materials, course design, and learning environments while supporting their digital literacies. Rather than introduce AI as a means of outsourcing subject area expertise, critical thinking, or cognitive processes, the author instead emphasizes its potential to build on traditionally honed knowledge and foundational instructional design practices. From optimizing course alignment and accessibility practices to fostering active learning, motivation, and engagement, educators will find new solutions to common teaching and learning challenges with greater efficiency in time and capacity. The Open Access version of this book is available at <http://www.taylorfrancis.com> and has been made available under a Creative Commons Attribution Non-Commercial No Derivatives CC BY-NC-ND 4.0 license. [Transcending Boundaries in the Digital Age](#) Steven Kwan, Keung Ng, Tiffany Shurui Bai, Noble Po Kan Lo, Anna Wing Bo Tso, Wendy Wing Lam Chan, 2025-07-24 This book addresses the topic of educational communications and technology in the digital age with a comprehensive and forward-looking approach. It explores innovative hybrid and online learning models, examines issues of equity and inclusion in digital education, investigates the integration of emerging technologies and artificial intelligence, and delves into the evolving landscape of assessment, collaboration, and skill development in digital environments. It presents cutting-edge research, case studies, and strategies for optimizing the use of technology in teaching, learning, and assessment, while also addressing the ethical and societal implications of these advancements to ensure a focus on empowering learners and promoting inclusivity. This book provides a roadmap for the future of education in the digital age, offering valuable insights and practical solutions for educators, researchers, and policymakers alike. *The Journalist's Toolbox* Mike Reilley, 2024-01-05 Focusing on the how and why of digital reporting, this interactive textbook equips readers with all the skills they need to succeed in today's multimedia reporting landscape. The Journalist's Toolbox is an extension of the JournalistsToolbox.ai website, which provides links to tools organized by beats and topics, as well as social channels, a newsletter, and more than 95 training videos relevant to journalists. This handbook offers a deep dive into these digital resources, explaining how they can be manipulated to build multimedia stories online and in broadcast. It covers all the basics of data journalism, fact-checking, using social media, editing, and ethics, as well as video, photo, and audio production, and

storytelling The book considers digital journalism from a global perspective including examples and interviews with journalists from around the world Packed full of hands on exercises and insider tips The Journalist s Toolbox is an essential companion for students of online digital journalism multimedia storytelling and advanced reporting This book will also make an ideal reference for practicing journalists looking to hone their craft This book is supported by training videos interactive charts and a pop up glossary of key terms which are available as part of an interactive e book or online for those using the print book

**Pitfalls of AI Integration in Education: Skill Obsolescence, Misuse, and Bias** Garcia, Manuel B.,Rosak-Szyrocka, Joanna,Bozkurt, Aras,2025-05-09 The integration of artificial intelligence AI in education rapidly transforms the teaching and learning process Recent systematic reviews have shown an increase in research studying the opportunities and challenges associated with AI in education This trend reflects a growing recognition of its potential to revolutionize educational practices However there are also growing concerns and issues with skill obsolescence leading to job displacement algorithm bias and misuse of AI for academic dishonesty As educational institutions increasingly rely on AI to enhance academic outcomes proactively addressing these challenges ensures the ethical and responsible use of AI in education Pitfalls of AI Integration in Education Skill Obsolescence Misuse and Bias offers a targeted exploration of the critical challenges and concerns that arise as AI becomes more embedded in educational systems Focusing on emerging issues it addresses the gaps in current research and practice shedding light on the ethical practical and pedagogical dilemmas that educators students and institutions face Covering topics such as school infrastructure critical academic skills and intellectual property protection this book is an excellent resource for educators school administrators policymakers professionals researchers academicians and more

**Producing Precarity** Curtis Marez,2025-08-26 The hidden cost of TV production for communities of color Producing Precarity is a long overdue examination of the television industry s practice of offshoring production to impoverished sites within the US The author Curtis Marez focuses on state efforts to attract film and TV producers to poor places with tax incentives discounted public lands and subsidized infrastructures He argues that these efforts result in the redistribution of wealth from poor people of color Indigenous people and other taxpayers to Los Angeles based media makers while also diverting money that could be used for education and health care to the wealthy The popular series produced in these places such as Breaking Bad The Watchmen Lovecraft County The Walking Dead and Vida are praised by critics and awards organizations and highlighted by streaming services for challenging genre casting and narrative conventions However many of these shows rely on racialized and gendered low wage labor for production and diversity equity and inclusion representations can sometimes perpetuate repression such as depicting police as diversity champions Producing Precarity examines how contemporary streaming shows from these areas promote racial inequality in ideology and content as well as materially through their local production methods and perceptually through streaming distribution modes that discourage viewers from understanding how TV is

made Marez also provides examples of local resistance including movements against a police training center and a film studio in Atlanta as well as anti gentrification movements in Latinx neighborhoods of LA **Dr. Dobb's Developer Update**
