

# Digital Nomad

## Entre rêve et réalité

Le monde est leur terrain de jeux, ou plutôt leur bureau : **ce sont les digital nomads**. Ces travailleurs du numérique ont fait le choix de concilier voyage et travail grâce à **un mode de vie itinérant**. Qui sont-ils et quelles sont les clés pour se lancer avec succès ?

## Envies d'ailleurs et compétences dans le numérique

**40%** des moins de 35 ans songent à s'expatrier sous deux ans.

En parallèle, les professionnels du numérique n'ont **jamais été aussi nombreux : ils sont 800 000 en France**. Le nomadisme digital a de beaux jours devant lui !

## Un mode de vie attractif mais pas sans risques

## Le portrait robot du digital nomad

La communauté des digital nomads est composée d'autant d'hommes que de femmes. Ils sont majoritairement **trentenaires**, et sans enfants pour 74 % d'entre eux.

Contrairement aux idées reçues, ils ne bougent pas en permanence : la plupart des digital nomads restent **entre 3 et 9 mois au même endroit** avant de s'envoler vers de nouveaux horizons.

## Les pays qui ouvrent leurs portes aux digital nomads

De plus en plus de pays dans le monde mettent en place **des stratégies pour attirer les digital nomads**, comme des visas spécifiques adaptés à leur profil de travailleur à distance.

Argentine, Islande ou encore Bahamas, on recense aujourd'hui **un peu plus de 30 pays** qui proposent un régime spécifique pour ces travailleurs de passage...

Quelques idées de voyage...

## Un large panel de métiers pour le travail nomade

Des métiers les plus classiques...

- Développeur**
- Community manager**
- Graphiste**
- Rédacteur web**

...aux métiers plus atypiques.

- Photographe**
- Influenceur**
- Agent de voyage**
- Coach en ligne**

## La checklist pour se lancer en freelance

**« Les travailleurs du numérique sont à la fois toujours ailleurs et partout chez eux »**

The Creator Economy Selena Harris,2022-10-06 Social media is one of the best ways to earn income since almost everyone these days are using social media for networking and advertising Becoming a content creator is a great way to use your skills and passions to make an income All you need to do is make content that can have an audience and reach many people You will find that you can earn more income than ever before from your home office or bedroom You can wake up doing the thing you love the most everyday Know Your Audience Before being able to make content you need to establish an audience and make content for that audience You also need to choose the right platform based on that audience as some

generations prefer Snapchat and TikTok while others prefer YouTube You will need to establish your audience and then determine how to make content for them Knowing your audience is the most important step when it comes to content creation and it s the first step to become an influencer Did you know that social media can be your main income Social media is a competitive market since many people are on the platforms making content and wanting to be content creators However you can still make a name for yourself by following the right guide and by having the right tools You just need to invest in yourself and invest in your skills in order to be able to market them Becoming a content creator on your own can prove to be impossible that s why you need to do some research and training before diving into the world of content creation Not knowing the right tools and systems can make or break your experience as a content creator Your relationship with your hobbies is also important You need to find a niche before becoming a content creator Decide what you are good at and what your passions are Then you can make content based on your hobbies and your experiences Finding your niche can be hard though That s why we ve created a detailed and informative guide that will give you guidance on how YOU CAN easily become a content creator and monetize off your skills and passions I m proud to introduce you The Creator Economy

**How To Be A Digital Nomad** Ida Tash,2021-04-26 How To Be A Digital Nomad Learn How You Can Start Work Online While Travel The World Hey Fellow Reader I m Ida a Digital Nomad and online marketer I love travel And I ve been a Digital Nomad Experiencing Outdoor travel as well Meanwhile I love travel I love to keep myself girly as much as possible on a budget while traveling I have learned a lot since the past few years and I ll share all the things I ve learned into this manuscript Here is a part you ll find inside this book What is a Digital nomad A digital nomad lifestyle is becoming more of the trend and this article will tell you what a digital nomad is and the realities of a Location Independent Business What is a digital nomad and why are there so many people who want to work this way A digital nomad is essentially a person who works for himself Many work at home mothers do this and are known as Full Time Gigs Others work as freelancers and do things a specific way like transcribing editing proofreading or programming However some digital nomads work for service companies and do things like web design web programming accounting creative writing or translation Those who work a digital nomad lifestyle do not work for a company or boss but instead work for themselves They set their own hours and follow their own rules It is difficult to be self employed in this society because you have to rely on the wills of others and your courage to set up your business However it is not impossible and there are different ways to be self employed which can provide you with more freedom and flexibility while still bringing in some money If you want to work at home then this is the technology which is enabling the change and it is allowing nomads to work from home Companies are recognising the potential of this new method of working and the first areas to embrace the new way of working are the legal ones However it is not just the legal firms and public sector which are looking to employment technology in order to cut costs Almost every type of industry is looking at using technology in order to lower costs and in this way increase profits For example

restaurants are using recruitment technology in order to lower salaries and costs Until a few years ago when every restaurant had a fixed cost of hiring training and maintenance the vast majority of restaurants were able to pay 100% of their employees salaries This meant that it was possible to pay a manager less than a waiter and save money However with the inclusion of recruitment technology the cost of hiring employees is being cut by up to 50% This does not necessarily mean that the amount of profit is increased but employees are able to be assigned to different tasks meaning that they spend less time in front of customers thus increasing their profits Interested to know more Then Scroll up Click on Buy now with 1 Click and Get Your Copy Now
