Seeking the truth about UFOs in America Mark Pilkington and John Lundberg uncover a 60 year old story stranger than any conspiracy thriller Through the fascinating account of their quest Mark Pilkington reveals the long history of UFOria and its parallels in little known tales from the murky worlds of espionage psychological warfare and advanced military technology Along the way he discovers that the truth about flying saucers is stranger and more complex than either the ufologists or debunkers would have us believe As he crossed the US meeting intelligence agents disinformation specialists and UFO hunters Pilkington was confronted with a dizzying array of ever more outrageous claims and counter claims As a result he began to suspect that instead of covering up stories of crashed flying saucers alien contacts and secret underground bases the US intelligence agencies had actually been promoting them all along Meanwhile he has to deal with his own uncertainties the suspicions of the UFO community and a partner who is starting to believe that conspiracy theorists might be right after all With a fresh funny and objective approach Pilkington is the ideal guide to steer us through these strange territories where nothing is quite as it seems and reality is just a matter of managing perceptions *American Gnosis* Arthur

Versluis, 2023-10-20 Drawing from the early Christian heretical category of Gnosticism *American Gnosis* explores the emergence of new forms of Gnostic religion throughout the Americas Arthur Versluis explores the concept of Gnosis and examines neo gnostic elements in contemporary American culture including in religion literature film and politics

Heaven on Earth Richard Landes, 2011-08-04 Millennialists through the ages have looked forward to the apocalyptic moment that will radically transform society into heaven on earth They have delivered withering critiques of their own civilizations and promised both the impending annihilation of the forces of evil and the advent of a perfect society And all their promises have invariably failed We tend therefore to dismiss these prophets of doom and salvation as crackpots and madmen and not surprisingly historians of our secular era have tended to underestimate their impact on our modern world Now Richard Landes offers a lucid and ground breaking analysis of this widely misunderstood phenomenon This long awaited study shows that many events typically regarded as secular including the French Revolution Marxism Bolshevism Nazism not only contain key millennialist elements but follow the apocalyptic curve of enthusiastic launch disappointment and often catastrophic re entry into normal time Indeed as Landes examines the explicit millennialism behind such recent events as the emergence of Global Jihad since 1979 he challenges the common notion that modern history is largely driven by secular

interests By focusing on ten widely different case studies none of which come from Judaism or Christianity he shows that millennialism is not only a cultural universal but also an extremely adaptive social phenomenon that persists across the modern and post modern divides At the same time he also offers valuable insight into the social and psychological factors that drive such beliefs Ranging from ancient Egypt to modern day UFO cults and global Jihad Heaven on Earth both delivers an eye opening revisionist argument for the significance of millennialism throughout history and alerts the reader to the alarming spread of these ideologies in our world today **The New Yorker** Harold Wallace Ross,Katharine Sergeant Angell White,1997 *Foundation* ,2002 **Books In Print 2004-2005** Ed Bowker Staff,Staff Bowker, Ed,2004 Motifs Don J. Feeney,2001-02-28 Just as DNA determines the genetic makeup of every individual a motif determines individual bio psycho social emotional and spiritual behaviors and attitudes This epigenetic theory of individuality describes the motif as a unique artistry of organizing principles The author uses the concept of motif to explain physiology behavior and attitude and to show how each person has his or her own unique system of motifs that comprises the fabric of every level of personality Case studies exemplify the way in which motifs manifest the self and how the core personality is understood once the individual s motif is revealed Of interest to graduate students in psychology and clinicians and counselors in the field of humanistic and clinical psychology holistic medicine wellness and mind body healing psycho biology and spirituality this book will bring new understanding to personality and behavior studies *Traité d'anatomie humaine: Angéiologie.
