American Anthropological Association

Research Ethics And Social Movements Scholarship Activism And Knowledge Production:

Research Ethics and Social Movements Kevin Gillan, Jenny Pickerill, 2014-11 This book explores the demands of ethical responsibilities when carrying out research in a range of contentious political environments Scholars of social and political movements open up debate on how best to respond to the multiple identities priorities and political commitments that come into play in any real world research project This book was published as a special issue of Social Movement Studies

Research Ethics and Social Movements Taylor & Francis Group, 2020-12-18 What ethical challenges are faced by researchers studying social and political movements Should scholars integrate their personal politics and identities into their research What role should activists have in shaping the purposes or processes of social scientific research How do changing political contexts affect the ethical integrity of a research project over time These are some of the live issues of research ethics that face students and scholars whose research subjects are located in contentious political terrain The contributors to this volume expose their own ethical thinking as they have met such challenges head on Each explores real dilemmas of ethical practice on the ground as they carry out research on social movements across the globe Authors examining pro democracy activists in Malaysia sanctions breakers in the Gaza Freedom Flotilla environmental health organisations in North America and much else find that the narrow confines of Research Ethics Committees and Institutional Review Boards offer little guidance on the questions that really matter They offer instead a demonstration of continual reflexivity that is both personal and political in its approach This book opens up debate on research ethics delineating key challenges and offering hopeful and practical ways forward for real world ethical social science This book was published as a special issue of Social Movement Studies

Research Ethics and Social Movements Kevin Gillan, Jenny Pickerill, 2016-04-14 What ethical challenges are faced by researchers studying social and political movements Should scholars integrate their personal politics and identities into their research What role should activists have in shaping the purposes or processes of social scientific research How do changing political contexts affect the ethical integrity of a research project over time These are some of the live issues of research ethics that face students and scholars whose research subjects are located in contentious political terrain The contributors to this volume expose their own ethical thinking as they have met such challenges head on Each explores real dilemmas of ethical practice on the ground as they carry out research on social movements across the globe Authors examining pro democracy activists in Malaysia sanctions breakers in the Gaza Freedom Flotilla environmental health organisations in North America and much else find that the narrow confines of Research Ethics Committees and Institutional Review Boards offer little guidance on the questions that really matter They offer instead a demonstration of continual reflexivity that is both personal and political in its approach This book opens up debate on research ethics delineating key challenges and offering hopeful and practical ways forward for real world ethical social science This book was published as a special issue of Social Movement Studies

Social Movements and Protest Politics Greg Martin, 2023-12-22 This fully

revised and updated edition of Social Movements and Protest Politics provides interdisciplinary perspectives on the sociology of protest movements. It considers major theories and concepts which are presented in a clear accessible and engaging format. The second edition contains new chapters on methods and ethics of social movement research and legal mobilisation, protest policing and criminal justice activism including calls to abolish or defund police made at protests during the COVID 19 pandemic. This edition introduces readers to the concept of the post protest society wherein the right to protest is whittled away to near vanishing point and authorities have considerable legal recourse to ban protests and render the tactics of protest movements ineffective. The book also looks at recent developments and novel social movements including Black Lives Matter, Extinction Rebellion, Gilets Jaunes, MeToo and Hong Kong's Umbrella Movement as well as the rise of contemporary forms of populism in democratic societies. The book presents specific chapters outlining the early origins of social movement studies and more recent theoretical and conceptual developments. It considers key ideas from resource mobilisation theory, the political process model and new social movement approaches. It provides extensive commentary on the role of culture in social protest including visual images, emotions, storytelling, music and sport, religious movements, geography and struggles over space, media and movements and global activism. Historical and contemporary case studies and examples from a variety of countries are provided throughout including the American civil rights movement, Greenpeace, Pussy Riot, Indigenous peoples movements, liberation theology, Indignados, Occupy, Tea Party and Arab Spring. Each chapter also contains illustrations and boxed case studies to demonstrate the issues under discussion. Social Movements and Protest Politics will be an indispensable resource for undergraduate and postgraduate students in the social sciences and humanities wanting to be introduced to or extend their knowledge of the field. The book will also prove useful to university teachers and academic researchers, activists and practitioners interested in the study of social, cultural and political protest.

Methodological Practices in Social Movement Research Donatella della Porta, 2014-09-25. Social movement studies have grown enormously in the last few decades, spreading from sociology and political science to other fields of knowledge as varied as geography, history, anthropology, psychology, economics, law and others. With the growing interest in the field, there has been also an increasing need for methodological guidance for empirical research. This volume addresses this need by introducing the main methods of data collection and data analysis as they have been used in past research on social movements. Unlike other volumes, the book offers a practical how to approach and not simply a review of the methodological literature. Each author writes on a method they are very familiar with, having used it extensively in their own work. And each chapter presents specific discussions on every stage of research, from research design to data collection and the use of the information gathered. Throughout, research dilemmas and choices are presented, illustrated and discussed. The volume offers an essential point of reference for anyone undertaking research on social movements.

Cycling Activism Peter Cox, 2023-07-28. The first full length study of cycling activism through the lens of social movement theory, this book demonstrates that despite

tremendous differences bike activism can be understood as a continuous and connected activity spanning a century and a half and across continents With examples from street protest to institutional lobbying it emphasises cycling s current central importance to zero carbon transport futures while showing that cycling activism is also not always about the bike or the cyclist as successive generations of activists have used cycling to articulate different visions of freedom and autonomy Moving from a consideration of social movement theory as a means to understand cycling activism the author presents a series of case studies of collective action organisations networks and campaigns in order to illustrate and elaborate a theoretical model through which diverse campaigns and approaches to change can be understood As such Cycling Activism will appeal to those with interests in mobilisation for social change mobility and transport studies and social movement theory as well as cycling studies

Konflik Gaza dan misi kemanusiaan Freedom Flotilla Mohd. Roslan Mohd. Nor, Ruzanah Mohd. Rozi, 2020 Gaza conflict and the humanitarian mission of Freedom Flotilla free Gaza Movement s **Media Activist Research Ethics** Sandra Jeppesen, Paola Sartoretto, 2020-09-01 This book maps complex ethical dilemmas in social justice research practices in media and communication Contributors critically analyse power dynamics that arise when building equitable research relations with media activists social movements and cultural producers considering issues of access control affective labour reciprocal critiques and movement pedagogies Authors probe the ethical challenges faced when horizontal relations inadvertently create conflicts leading to oppressive communication when affective demands generate non reciprocal relations of care and when participant anonymity has to be balanced with self expression and voice Chapters explore engagements with digital technologies in developing research relations covering new research practices from horizontal collectives to dialogical auto ethnography from community scholarship and pedagogies to decolonising research The book asks researchers to consider the complexities of ethical practices today in socially engaged global research within the neoliberal university

Abstracts of the Annual Meeting American Anthropological Association, 2008 **The Voice and the Will** Guy Poitevin, 2002 With reference to rural women of India Sociological Abstracts Leo P. Chall, 2000 Contains more than 300 000 records covering sociology social work and other social sciences Covers 1963 to the present Updated six times per year Dictionary of Multicultural Education Carl A.
