*Roman Syria and the Near East* Kevin Butcher, 2003 Table of contents      **The Near East** ,1916      Emperor Alexander Severus John S. McHugh, 2017-06-30 Alexander Severus is full of controversy and contradictions He came to the throne through the brutal murder of his cousin Elagabalus and was ultimately assassinated himself The years between were filled with regular uprisings and rebellions court intrigue the Praetorian Guard slew their commander at the Emperor's feet and foreign invasion Yet the ancient sources generally present his reign as a golden age of just government prosperity and religious tolerance Not yet fourteen when he became emperor Alexander was dominated by his mother Julia Mamaea and advisors like the historian Cassius Dio In the military field he successfully checked the aggressive Sassanid Persians but some sources see his Persian campaign as a costly failure marked by mutiny and reverses that weakened the army When Germanic and Sarmatian tribes crossed the Rhine and Danube frontiers in 234 Alexander took the field against them but when he attempted to negotiate to buy time his soldiers perceived him as weak assassinated him and replaced him with the soldier Maximinus Thrax John McHugh reassesses this fascinating emperor in detail      *The Roman Near East, 31 B.C.-A.D. 337* Fergus Millar, 1993 From Augustus to Constantine the Roman Empire in the Near East expanded step by step southward to the Red Sea and eastward across the Euphrates to the Tigris In a remarkable work of interpretive history Fergus Millar shows us this world as it was forged into the Roman provinces of Syria Judaea Arabia and Mesopotamia His book conveys the magnificent sweep of history as well as the rich diversity of peoples religions and languages that intermingle in the Roman Near East Against this complex backdrop Millar explores questions of cultural and religious identity and ethnicity as aspects of daily life in the classical world and as part of the larger issues they raise As Millar traces the advance of Roman control he gives a lucid picture of Rome's policies and governance over its far flung empire He introduces us to major regions of the area and their contrasting communities bringing out the different strands of culture communal identity language and religious belief in each The Roman Near East makes it possible to see rabbinic Judaism early Christianity and eventually the origins of Islam against the matrix of societies in which they were formed Millar's evidence permits us to assess whether the Near East is best seen as a regional variant of Graeco Roman culture or as in some true sense oriental A masterful treatment of a complex period and world distilling a vast amount of literary documentary artistic and archaeological evidence always reflecting new findings this book is sure to become the standard source for anyone interested in the Roman Empire or the history of the Near East      *The Book of History: The Near East* ,1915 A profusely illustrated summary of world history from an Euro centric view but in great detail up to the end of World War II      *The Oxford Encyclopedia of Archaeology in the Near East* ,1997 This comprehensive five volume work analyzes the archaeological and linguistic data that pertain to the broad cultural milieu of the ancient Near East the crossroads of three of the world's most influential religions Judaism Christianity and Islam Ranging from prehistoric times up to the early centuries of the rise of Islam the work covers the

***Sinews of Empire*** Eivind Seland, Hakon Teigon, 2017-06-30 A recent surge of interest in network approaches to the study of the ancient world has enabled scholars of the Roman Empire to move beyond traditional narratives of domination resistance integration and fragmentation This relational turn has not only offers tools to identify map visualize and in some cases even quantify interaction based on a variety of ancient source material but also provides a terminology to deal with the everyday ties of power trade and ideology that operated within below and beyond the superstructure of imperial rule Thirteen contributions employ a range of quantitative qualitative and descriptive network approaches in order to provide new perspectives on trade communication administration technology religion and municipal life in the Roman Near East and adjacent regions

***Rome in the East*** Warwick Ball, 2016-06-10 This new edition of *Rome in the East* expands on the seminal work of the first edition and examines the lasting impact of the near Eastern influence on Rome on our understanding of the development of European culture Warwick Ball explores modern issues as well as ancient and overturns conventional ideas about the spread of European culture to the East This volume includes analysis of Roman archaeological and architectural remains in the East as well as links to the Roman Empire as far afield as Iran Central Asia India and China The Near Eastern client kingdoms under Roman rule are examined in turn and each are shown to have affected Roman and ultimately European history in different but very fundamental ways The highly visible presence of Rome in the East mainly the architectural remains some among the greatest monumental buildings in the Roman world are examined from a Near Eastern perspective and demonstrated to be as much if not more a product of the Near East than of Rome Warwick Ball presents the story of Rome in the light of Rome's fascination with the Near East generating new insights into the nature and character of Roman civilisation and European identity from Rome to the present Near Eastern influence can be seen to have transformed Roman Europe with perhaps the most significant change being the spread of Christianity

This new edition is updated with the latest research and findings from a range of sources including field work in the region and new studies and views that have emerged since the first edition Over 200 images most of them taken by the author demonstrate the grandeur of Rome in the East This volume is an invaluable resource to students of the history of Rome and Europe as well as those studying the Ancient Near East Sacred Landscapes in Antiquity Ralph Haussler, Gian Franco Chiai, 2020-07-31 From generation to generation people experience their landscapes differently Humans depend on their natural environment it shapes their behavior while it is often felt that deities responsible for both natural benefits and natural calamities such as droughts famines floods and landslides need to be appeased We presume that in many societies lakes rivers rocks mountains caves and groves were considered sacred Individual sites and entire landscapes are often associated with divine actions mythical heroes and etiological myths Throughout human history people have also felt the need to monumentalize their sacred landscape But this is where the similarities end as different societies had very different understandings beliefs and practices The aim of this new thematic appraisal is to scrutinize carefully our evidence and rethink our methodologies in a multi disciplinary approach More than 30 papers investigate diverse sacred landscapes from the Iberian peninsula and Britain in the west to China in the east They discuss how to interpret the intricate web of ciphers and symbols in the landscape and how people might have experienced it We see the role of performance ritual orality textuality and memory in people's sacred landscapes A diachronic view allows us to study how landscapes were rewritten adapted and redefined in the course of time to suit new cultural political and religious understandings not to mention the impact of urbanism on people's understandings A key question is how was the landscape manipulated transformed and monumentalized especially the colossal investments in monumental architecture we see in certain socio historic contexts or the creation of an alternative humanmade seemingly non natural landscape with perfectly astronomically aligned buildings that define a cosmological order Sacred Landscapes therefore aims to analyze the complex links between landscape religiosity and society developing a dialectic framework that explores sacred landscapes across the ancient world in a dynamic holistic contextual and historical perspective *The Question of the Near East* Albert Howe Lybyer, 1921
