Gerstel,2002 A guide to running a construction company that provides tips and information on creating operating procedures improving worker skills using computers keeping the right forms and paperwork up to date competitive bidding and other topics *Managing a Construction Firm on Just 24 Hours a Day* Matt Stevens,2006-11-09 This detailed overview of the construction contracting business delivers an invaluable collection of best practices forms templates and checklists designed to reduce risks and increase profits Contractors will learn everything they need to know about the make or break areas of estimating pricing bidding project management and financial management The author is well known in the industry with a weekly newsletter website online digest regular column for Contractor magazine and 70 plus seminar bookings for 2006 Extensive examples and illustrations help readers apply the insights offered Construction Company Growth Strategy Wally Schallhorn,2021-07-09 You will also need construction management software to manage the different processes that go with construction such as planning organizing and managing resources This software also gives you the ability to execute projects efficiently and thus increase profitability This book explores important aspects of managing a construction company that impacts its success and profitability Obviously managers should have an understanding of running a business as well as the appropriate technical skills But it s usually more than this The chapters in this book focus on the importance of selecting the right project how to find projects tendering correctly winning the project delivering the project avoiding unnecessary costs increasing revenue financial and contractual controls managing the company the importance of employing good people growing the company and ensuring the company has a good reputation *Construction Business Management* Nick Ganaway,2007-06-01 Only 43 per cent of U S construction firms remain in business after four years Why Inadequate management according to the U S Small Business Administration This is surprising because most construction firms are formed by ambitious construction project managers executives and tradesmen who have excelled at what they have been doing But as experienced as these entrepreneurs may be they are not likely prepared to take on the full range of responsibilities forced on them in managing the business of construction in its entirety While this business failure rate and its causes are based on U S experience available data from a number of other industrialized countries shows they are similar This book describes in detail what the business side of the construction equation requires of the construction firm owner The

contractor who quickly learns these requirements can identify and avoid or manage around the pitfalls that cause the high failure rate in our industry and put his or her construction firm on a level playing field with the best run companies in the business. The detailed duties of the owner whether in the U S U K Australia or Canada are a common theme throughout the book. The author Nick Ganaway speaks peer to peer and the book is sprinkled with supporting examples from his own experience. He is immersed in the industry and this book is based on the things I've learned, used and refined as a light commercial general contractor in the course of starting and operating my own construction firm for 25 years. The contractor doing 5 million or 50 million or more in annual sales or the equivalent amount in other countries or the entrepreneur who is just starting up can use the tried and proven material in this book to build a business that is profitable, enjoyable and enduring. Additionally, the book devotes a chapter to specializing in chain store construction.

How to Start a Construction Business ARX Reads, Deciding to start your own construction company can be an exciting but overwhelming experience. With so much research, reporting and paperwork to complete, it's easy to get lost in the administrative details and forget the passion that inspired you to start your own business to begin with. If you want to start a construction company, you need to read this book. About 90% of construction companies fail in the first year or two. Why? It's not because they aren't great at the construction side. But it's because they don't know how to run a business. I know a ton of contractors that are great on the field but don't understand how to get more leads, win projects and manage a team. If that sounds like you, don't worry. If you absorb the tactics in this book, you're almost guaranteed to build your company on solid ground and have unlimited potential to grow.
