

SAMPLE CMT LEVEL II EXAM

The following document is a sample exam paper. The questions have been constructed/ phrased in a manner that is similar to past exams. The objective of this sample exam is to give a clear indication of the question structure and language one can expect in the exam.

Important points to note

- Note that these sample questions consist of questions patterned after those drawn from a much larger pool of actual exam questions. This creates the chance that the questions appearing in the exam may be significantly different from those contained in this sample. Candidates are cautioned **not to expect** exact replicas of the questions that will be seen in the current year administration.
- Note that the order in which questions appear in the sample exams has no bearing on the order questions will appear in the actual exam. The order of questions is randomized during the exam.
- The actual exam consists of 170 questions of which 150 are scored items. The remaining 20 questions are under trial for use in future exams.
- You will have four hours to complete the 170 questions of the exam.
- The exam is delivered on computer in Prometric testing facilities. Please schedule well in advance.

Please note that this sample question booklet has been prepared completely independently from the exam to ensure that the questions that will appear in the actual exam paper remain secure and confidential. The MTA maintains a discussion group forum for CMT candidates on its web site.
