Micro and Macro Economics Dr. Kahkasha Safi, Dr. Prashant Kumar, Miss Prasoon Gupta, 2024-04-16 This book MICRO and MACRO Economics theory has been written for the students of BBA B COM M COM and MBA This book covers the syllabus of almost all the universities and institutions running with the courses Although this book is for under graduation but it also covers up the syllabus of the post graduation classes and even for the beginners of the subject who have knowledge on the priority basis in this field would find this book easy to understand the graph and mathematical analysis has been used but in a manner that even without mathematics background students will find it out more easy to grasp the points The explanations and examples of the books are specifically written with the concepts of economics in the background and are not general cases on management This will further enhance the value of the book in future I have a great pleasure in presenting this book to the faculties and students of this subject Although there are many books available in the market on this subject but my experience of about ten years shows that the students somehow miss out on basic concept of topic and therefore tend to consider this subject as very tough and difficult Hence in writing this book special emphasis has been laid on simplicity of language and presentation without losing the academic rigor of the contents Even difficult topics have been presented in such a manner that the student understands it easily Unnecessary details have been avoided

Anti-corruption Education and Peacebuilding Jean de Dieu Basabose, 2019-03-06 This study explores corruption in Rwanda and highlights the necessity of developing anti corruption education as a way of combating corruption It argues that an effective campaign against corruption should consider promoting anti corruption education with the aim of enabling present and future generations to maintain and live out the Ubumuntu meaning trust respect ethical values Considering the link between anti corruption and peacebuilding efforts as explained in this study it is underlined that continuous efforts to raise such generations could undoubtedly move Rwandan society toward a sustainable peace Peacebuilders anti corruption agents and public policymakers are the primary beneficiaries of the study
