The Rights and Wrongs of Abortion John Finnis, 1974-07-21 The essays in this book originally appeared in the quarterly journal *Philosophy public affairs* *Equality and Preferential Treatment* Marshall Cohen, Thomas Nagel, Thomas Scanlon, 1977-08-21 These essays with one exception originally published in *Philosophy Public Affairs* consider the moral problems associated with improving the social and economic position of disadvantaged groups If the situation of women and minorities improves so that their opportunities are equal to those of more favored groups will they then be in a competitive position conducive to equal achievement If not can preferential hiring or preferential admission to educational institutions be justified The contributors explore the complexities of this problem from several points of view The discussions in Part I are more theoretical and concentrate on the application to this case of general considerations from ethical theory The discussions in Part II also take up theoretical questions but they start from specific problems about the constitutionality and the effectiveness of certain methods of achieving equality and counteracting discrimination The two groups of essays demonstrate admirably the close connection between moral philosophy and questions of law and policy The issues discussed include compensation liability victimization the significance of group membership the intrinsic importance of racial sexual or meritocratic criteria and the overall effects of preferential policies **The Rights and Wrongs of Abortion** Marshall
