Rules Of Thumb Bsria:

Rules of Thumb Glenn Hawkins, 2011 Rules of Thumb are general principles derived from practice and experience rather than precise theory The 5th edition of Rules of Thumb has been created by referencing various contemporary sources in the building services industry and can reasonably be held to reflect current design practices *Building Services Journal*, 2004

Faber & Kell's Heating and Air-Conditioning of Buildings Doug Oughton, Steve Hodgkinson, Richard Brailsford, 2014-11-27 For over 70 years Faber Kell's has been the definitive reference text in its field It provides an understanding of the principles of heating and air conditioning of buildings in a concise manner illustrating practical information with simple easy to use diagrams now in full colour This new look 11th edition has been re organised for ease of use and includes fully updated chapters on sustainability and renewable energy sources as well as information on the new Building Regulations Parts F and L As well as extensive updates to regulations and codes it now includes an introduction that explains the role of the building services engineer in the construction process Its coverage of design calculations advice on using the latest technologies building management systems operation and maintenance makes this an essential reference for all building services professionals

Energy Management and Operating Costs in Buildings Keith Moss, 2013-06-17 Managing the consumption and conservation of energy in buildings must now become the concern of both building managers and occupants The provision of lighting hot water supply communications cooking space heating and cooling accounts for 45 per cent of UK energy consumption Energy Management and Operating Costs in Buildings introduces the reader to the principles of managing and conserving energy consumption in buildings people use for work or leisure Energy consumption is considered for the provision of space heating hot water supply ventilation and air conditioning The author introduces the use of standard performance indicators and energy consumption yardsticks and discusses the use and application of degree days

Facilities for Cancer Services Department of Health: Estates and Facilities Division, 2006-04-27 This document gives best practice advice on the design and layout of cancer facilities within acute hospitals primarily chemotherapy and radiotherapy facilities Although it is aimed at new builds the recommendations should be applied where possible when existing facilities are being upgraded It describes a chemotherapy unit for the delivery of intravenous and intrathecal chemotherapy and a radiotherapy unit for the delivery of external beam radiotherapy teletherapy as well as facilities for undertaking unsealed source radiotherapy and sealed source radiotherapy brachytherapy It also describes a dedicated out patients unit OPU for cancer patients although it is acknowledged that some trusts will use a shared out patients facility Reference is made to facilities that are not used exclusively by people with cancer but have a particular relevance
