Implementation Patterns Kent Beck,2008 From best selling author Kent Beck comes one of the most important books since the release of the GOF s Design Patterns **Introduction to Programming and Object-Oriented Design Using Java** Jaime Niño,Frederick A. Hosch,2008-02-04 The 3rd edition of Introduction to Programming and Object Oriented Design continues to provide students with an objects first introduction to programming and software design using Java Java is used as a vehicle for teaching problem modeling using fundamental software engineering principles and concepts The text has been updated to include more problems and exercises and additional relevant examples It also offers optional interactive

exercises using the DrJava integrated development environment IDE The UML is employed very informally for denoting objects object relationships and system dynamics No specific previous programming experience is assumed and the text is appropriate for first year computer science majors The text could also carry over to a second course on data structures or software OO design Refactoring to Patterns Joshua Kerievsky,2005 Kerievsky lays the foundation for maximizing the use of design patterns by helping the reader view them in the context of refactorings He ties together two of the most popular methods in software engineering today refactoring and design patterns as he helps the experienced developer create more robust software *JavaServer Faces: The Complete Reference* Chris Schalk,Ed Burns,James Holmes,2006-08-25 Ideal for the 3 million Java developers this fast paced tutorial offers in depth coverage of JavaServer Faces JSF Sun Microsystem s Web application architecture for the future Co written by the 1 JSF expert in the Java community this book offers the most complete resource on JSF available Extensive coverage on JSF custom component development Serves as a thorough introduction to AJAX technology and techniques Numerous custom JSF component examples including AJAX enabled components provided *Test-driven Development* David Astels,2003 This guide for programmers teaches how to practice Test Driven Development TDD also called Test First Development Contrary to the accepted approach to testing when you practice TDD you write tests for code before you write the code being tested This text provides examples in Java

Extreme Programming Refactored Matt Stephens,Doug Rosenberg,2003-08-13 Extreme Programming Refactored The Case Against XP featuring Songs of the Extremos takes a satirical look at the increasingly hyped extreme programming XP methodology It explores some quite astonishing Extremo quotes that have typified the XP approach quotes such as XPers are not afraid of oral documentation Schedule is the customer s problem Dependencies between requirements are more a matter of fear than reality and Concentration is the enemy In between the chuckles though there is a serious analysis of XP s many flaws The authors also examine C3 the first XP project whose team most of whom went on to get XP book deals shortly before C3 s cancellation described themselves as the best team on the face of the Earth In a later chapter the authors also note that one problem which can affect pair programmers is overconfidence or is that eXcessive courage The authors examine whether the problems that led to C3 s inexplicable cancellation could also afflict present day XP projects In the final chapter Refactoring XP Matt and Doug suggest some ways of achieving the agile goals of XP using some XP practices used in moderation combined with other less risk laden methods *Extreme Programming and Agile Processes in Software Engineering* ,2005

Practical Development Environments Matthew B. Doar,Matthew Doar,2005-09-23 Everyone wants a technical environment for developing their software Containing guidelines for how to create and maintain a development environment this book discusses some of the tools covering different areas such as version control build tools testing tools bug tracking systems documentation environments release tools and maintenance **Java Open Source Programming** Joseph Walnes,Ara Abrahamian,Mike Cannon-Brookes,Patrick A.
