Sap Mii In A Mass Customization Business:

Entwicklung einer adaptiven digitalen Logistikkette für eine intelligente Fabrik im Bauwesen Bennet

Zander, 2024-05-31 Deutschland strebt bis 2045 eine Treibhausgasneutralität an und unternimmt in allen Wirtschaftssektoren Maßnahmen in diese Richtung. Da insbesondere Gebäude zu über 30 % der CO₂-Emissionen beitragen, spielt das Bauwesen eine entscheidende Rolle bei der Verlangsamung des Klimawandels. Zukünftig können im Bauwesen intelligente Fabriken einen wesentlichen Beitrag zur Reduzierung von Emissionen leisten, da in diesen die Produktion von individuellen Fassaden und Dachpaneelen für die energetische Gebäudesanierung entsprechend eines industriellen Maßstabs erfolgen kann. Dieses Buch bietet einen Ansatz für den Aufbau der Logistikkette einer intelligenten Fabrik im Bauwesen und veranschaulicht die digitale Verknüpfung von Beschaffungs-, Produktions-, Distributions- sowie Baustellenprozessen. Die Grundlage für die Systemintegration stellen Cyber-Physische Systeme, einheitliche Kommunikationsstandards und digitale Plattformen dar, wodurch ein transparenter Nachweis der Herkunft und der Prozessschritte vorliegt. **Commerce Business Daily**, 2000-06

Information and Management Systems for Product Customization Thorsten Blecker, Gerhard Friedrich, Bernd

Kaluza, Nizar Abdelkafi, Gerold Kreutler, 2005-12-28 In today's competitive environment, manufacturing and service companies are intensifying their customization processes. Customization means companies must meet the challenge of providing individualized products and services without introducing high costs. Therefore, companies must address both customization and cost factors to gain a competitive advantage. While product customization is the manufacturing of products according to individual customer needs, it does not involve any focus on the cost perspective. Information and Management Systems for Product Customization will concentrate on both product customization and costs efficiency, which is termed as mass customization. Moreover, mass customization with its multi-dimensions is the new business paradigm challenging today's manufacturing companies. **Moving into Mass Customization** Claus Rautenstrauch, Ralph Seelmann-Eggebert, Klaus

Turowski, 2002-07-09 Mass Customization leads the strategy of today's well-succeeded companies. It indulges the customer with the so long yearned-for product and/or service that exactly fits his desires and specifications. This book compiles a hand-selected variety of testimonies from Mass Customization experts worldwide with different experiences, both on an academic research basis as well as on practical case studies. This diversity makes it a compulsory guide to use in any enterprise throughout the world that wants to take its business into new and more ambitious dimensions. Furthermore, its contents are structured in a way that will help everyone that wants to learn, teach or put into practice the concepts of Mass Customization.
