Accounting Paul D. Kimmel, Jerry J. Weygandt, Donald E. Kieso, 2010-12-01 With this fourth edition accountants will acquire a practical set of tools and the confidence they need to use them effectively in making business decisions. It better reflects a more conceptual and decision making approach to the material. The authors follow a macro to micro strategy by starting with a discussion of real financial statements first rather than starting with the Accounting Cycle. The objective is to establish how a financial statement communicates the financing, investing and operating activities of a business to users of accounting information. This motivates accountants by grounding the discussion in the real world showing them the relevance of the topics covered to their careers. Financial Accounting Paul D. Kimmel, Jerry J. Weygandt, Donald E. Kieso, 2020 The new eighth edition of *Financial Accounting Tools for Decision Making Canadian Edition* by Kimmel, Weygandt, Kieso, Trenholm, Irvine and Burnley continues to provide the best tools for both instructors and students to succeed in their introductory financial accounting class. It helps students understand the purpose and use of financial accounting whether they plan to become accountants or whether they simply need it for their personal life or career. The book's unique balanced procedural and conceptual, user-oriented approach, proven pedagogy and breadth of problem material has made *Financial Accounting* the most popular introductory text in Canada. This hands-on text paired with a powerful online teaching and learning environment offers students a practical set of tools for use in making business decisions based on financial information.
