Character Creation Paul Tomlinson, 2018-11-19 Create Larger than Life Characters Readers and audiences love larger than life characters Think of Hannibal Lecter Captain Jack Sparrow Elizabeth Bennet Holly Golightly or Sherlock Holmes But how do you create memorable story people like this 90% of a character like an iceberg exists below the surface But you have to create that submerged content so that the part an audience sees can shine in the sunlight Or spotlight Character Creation is not a how to write or how to act book it is about doing the background work that enables you to bring a character to life Here you will find three fundamental character personality archetypes the primary colours of your character palette the Warrior the Thinker and the Carer And three hybrid personalities that blend those three the Crusader the Artist and the Adventurer These six types are all you need to understand to create any character including psychopaths antiheroes and rebels To guide you in creating the three dimensions of character the physical social and psychological each of the archetypes are explained in terms of a dozen key features To help you create heroes and villains there is detail about the dark and light side of each of the types and why individuals end up on a particular side To allow you to develop conflict or romance friendship or feud there is advice on which personality types attract one another and which ones will fight And there is a step by step framework for a character development arc that you can use to take your flawed hero character towards a happy ever after or a tragic ending p These tools can be used to improvise a new character from scratch or to explore an existing character and fill in the missing pieces of their background Character Creation draws on the work of Stanislavski and Laban combining this with modern theories of human psychology and mental health to provide a detailed and complete framework for creating larger than life characters Character, Scene, and Story Will Dunne, 2017-10-09 This book is a sequel to The Dramatic Writer's Companion by Will Dunne master teacher of playwrights screenwriters and anyone working on dramatic scripts Following the format of its predecessor it is divided into three major sections on character scene and story and consists of more than 40 new workshop tested exercises to help writers zero in on and solve specific problems in
