Written in accordance with the President's 2003 homeland security directive and the Department of Education's guidelines and in response to the ever present threats facing our school systems this book helps schools and institutions develop a comprehensive emergency response plan. This book outlines programs and procedures that can be applied to any school system to address hazard mitigation and prevention, emergency preparedness and response, and recovery and restoration of school functions to an effective learning environment. It describes specific actions and assigns responsibilities and response roles to district and individual school staff, emergency teams, cooperating agencies, and community response partners that have agreed to share responsibilities and resources as defined in this plan. This book also outlines in the event of an emergency involving response by fire and/or law enforcement, the district school site personnel who should establish an Incident Command System based response organization in accordance with procedures outlined in the National Incident Management System. In addition, the authors predetermine to the extent possible operational procedures across any U.S. school system and cooperating governmental, private, and volunteer agencies for responding to and recovering from any and all types of natural, human, or technology-based emergencies that may occur within school system operations or outside the jurisdiction of the school system but nonetheless cause could cause collateral impact to school system operations. Contents examine emergency notification and immediate actions, concept of operations including first key actions, partnering with community agencies, and the initial briefing, crisis management team action checklists, response resources including personnel, response team partners, emergency evacuation receiving facilities, and emergency equipment and supplies, emergency response flip charts for principals, teachers, secretaries, and custodians, district incident Selected Course Papers on Aviation Security and Crisis Management, 2000. *Safe Schools* Carol Abbott, California. State Department of Education, 2002. This workbook presents a seven step planning process for safe and effective schools. Though specifically directed to schools in California, most of the components of the plan will pertain to schools everywhere. The workbook contains requirements of the California Education Code, many work sheets, sample forms, summary sheets, checklists, rubrics, matrices, and definitions, and an action plan for each of the seven steps. The seven steps in the planning process are as follows: 1. Identify your safe school planning committee members. 2. Create a vision of your school as a place where students are safe to learn and base that vision on youth development. 3. Gather and analyze data. 4. Identify strengths and areas of desired change and set major annual goals for each of the two safe school components. 5. Select and implement strategies. 6. Communicate the safety plan to the public, hold public meetings for input, and keep the updated plan available for public inspection. 7. Evaluate your progress, revise the plan annually, and include the plan in your school accountability report card.
