How Do I Ai Tools For Teachers Ideas For American Readers:

How to Teach AI Rachelle Dené Poth, 2024 Get practical tools and strategies for teaching AI across the K 12 curriculum with this accessible guide As AI continues to transform our world educators have a responsibility to stay current with the changes and ensure that students have the necessary knowledge and skills to succeed in the future Written by an educator who is currently teaching on this topic How to Teach AI shares practical strategies and tools based on what good practice looks like in the classroom right now Readers will build confidence in integrating AI into their curriculum so they can effectively prepare students for their careers Taking a friendly and accessible approach the book covers a range of topics related to AI such as machine learning robotics and natural language processing and includes examples of how these technologies are being implemented in different industries and their impact on education The book includes a chapter dedicated to the ethics of AI addressing issues around bias intellectual property student data privacy and more The book includes Ideas for using generative AI in the classroom and tips for writing effective prompts Activity ideas across content areas including computer science economics literature music and more Time saving ideas for teachers and study aids for students to explore AI powered tool recommendations for teachers Questions for reflection in every chapter With examples from educators in the field and a variety of resources to apply in the classroom this book helps educators become comfortable with this important topic and create meaningful learning experiences for their students Audience Elementary and secondary educators and technology coaches *Resources in Education* ,1988 *The Digital Future of English* Simone Murray, 2025-07-18 More than any other academic discipline literary studies is the creation of print culture How then can it thrive in the digital era Early 1990s predictions of the book s imminent demise presented a simplistic either or choice between the legacy of moribund print and triumphalist digital technology Yet we have grown to experience the two media as complexly interdependent and even complementary Clearly digital does not kill print But literary studies in the digital era cannot simply resume business as usual It is urgently necessary to reconsider the discipline s founding assumptions in light of digital technology The digital era prompts a rethinking of literary studies object of study as well as its methods theories audiences and pedagogical practices What counts as literature necessarily shifts in an age of proliferating born digital texts and do it yourself DIY online publication Where should literary studies sit institutionally and how might it graft contextually oriented social sciences methods onto its traditionally humanistic mode of textual analysis Why should literary study continue to marginalize emotional responses to texts when online communities bond via readerly affect Who is the audience for literary criticism in an age where expertise is routinely challenged yet communication with global book loving publics has never been technologically easier Finally how can we utilize digital tools to rejuvenate literary studies pedagogy and help English staff better connect with millennial age students Literary studies has been convulsed for decades by debates over electronic literature and more recently digitally aided distant reading But these discussions still mostly confine themselves to

demarcating our proper object of study We need to think more expansively about digital technology s impact on the underpinning tenets of the discipline Literary Media Studies is pitched at fellow literary scholars book historians media theorists cultural sociologists digital humanists and those working at the interface of these converging disciplines It models constructive engagement with contemporary digital culture Most importantly it brings a burst of sorely needed optimism to the question of literary studies digital future
