

How To Write Good AI Prompts

Give your AI an identity

Tell your AI who it is. If your AI prompts are about tennis, for example, start by saying something like "You're Serena Williams" and then ask, "Help me come up with a writing prompt about tennis for 5-year-olds." Some other examples might be "You're a NASA astronomer. Help me come up with trivia questions for my sixth grade students about the planet Mars," or "You're Mark Cuban. What's a good prompt to get high schoolers to write about their career aspirations?"

Be very specific

You don't want to leave the AI tool guessing because it will probably fill in the wrong blanks. Instead, get as specific as possible about the topic, grade or difficulty level, and any other important details that should be included in the tool's response.

Incorporate educational objectives

Are you trying to meet certain curriculum-based learning objectives? If so, be sure to include those in your directions for generating AI prompts.

Define the audience

Be clear about who the AI prompt is for. Are you writing for 3rd grade parents or 10th grade AP U.S. history students? Tailor your prompts to suit the specific audience to ensure relevance and engagement.

Use open-ended questions

The goal is to allow for creative and open-ended responses to encourage problem-solving and creativity among your students.

Encourage critical thinking

Consider ways to generate AI prompts that promote critical thinking.

Define the output

Specify what you want the AI to generate. Whether it's a list of 20 writing prompts, a worksheet with 10 true or false questions, or a short letter with an introduction, two body paragraphs, and a conclusion, being clear about the desired output helps the AI deliver more accurate results.

Give feedback to refine the output

Interact with the AI tool you would with a student on an assignment. Provide feedback if you need more or different information. This helps refine the AI's responses and improves the quality of the output over time.

Teaching AI in Film and Media Studies Bridget Kies, Mel Stanfill, 2025-11-25 A timely intervention into the role of AI in teaching film and media studies this book offers insights into how scholars and educators can adapt their approaches in the face of emerging technologies Exploring the intersection of generative AI with film and media studies this book highlights the importance of addressing AI in the classroom It advocates for teaching AI literacy as an extension of media literacy encouraging students to

understand AI's biases and limitations. It explores the impact of AI on a variety of widely taught topics including copyright and remix culture, the concept of authorship and collaborative storytelling, film and media production, its potential in relation to speculative history and archival research, labor concerns in the media industries as well as impacts on fans and audiences. The book considers how AI can foster creativity and critical thinking in students as they prepare for future roles in evolving media industries. Each chapter features suggested readings, activities, and assignments that can be implemented in and out of class to reinforce and cultivate AI literacy and proficiency. This book is an essential resource for faculty members in Film and Media Studies who want to know more about how to engage with generative AI tools in their teaching as well as graduate students taking pedagogy-focused courses.
