The papers have been organized in the following topical sections: Keynote; different perspectives on Generative AI and contemporary challenges and possibilities for privacy and ID management. **School Counselors as Practitioners** Judy A. Nelson, Lisa A. Wines, 2024-06-25 School Counselors as Practitioners, Second Edition is a hands-on practice-based task-oriented guide to being an effective school counselor. Thoroughly revised, this textbook continues to address the foundation of school counseling, the main duties of a school counselor, the skills needed to be successful, and what to expect as a school counseling professional. All these topics have been updated to include the current thinking, research, and evidence-based practices and challenges in school counseling. Additionally, interviews of principals, school counselors, and community leaders are included, which provide readers with the reality of how to navigate the waters of the comprehensive school counseling program. The chapter authors also highlight the necessity of designing, implementing, and evaluating the counseling program for continuous improvement. Online resources provide students with templates and handouts for on-the-job responsibilities, as well as quiz questions for every chapter. This updated edition is essential reading for counselor educators, graduate students enrolled in a school counseling program, supervisors of school counselors, including administrators and practicing school counselors. **Artificial Intelligence in Education** Vania Dimitrova, 2009 This publication covers papers presented at AIED2009, part of an ongoing series of biennial international conferences for top-quality research in intelligent systems and cognitive science for educational computing applications. The conference provides opportunities for the cross-fertilization of techniques from many fields that make up this interdisciplinary research area, including artificial intelligence, computer science, cognitive and learning sciences, education, educational technology, psychology, philosophy, sociology, anthropology, linguistics, and the many domain-specific areas for which AIED systems have been designed and evaluated. AIED2009 focuses on the theme Building learning systems that care, from knowledge representation to affective modelling. The key research question is how to tackle the complex issues related to building learning systems that care, ranging from representing knowledge and context to modelling social, cognitive, metacognitive, and affective dimensions. This requires multidisciplinary research that links theory and technology from artificial intelligence, cognitive science, and computer science with theory and practice from education and the social sciences. **Advancing Natural Language Processing in Educational Assessment** Victoria Yaneva, Matthias von Davier, 2023-06-05 Advancing Natural Language Processing in Educational Assessment examines the use of natural language
