Chariots Of The Gods:

Chariots of the Gods Erich von Däniken, 2018-07-17 AS SEEN ON ANCIENT ALIENS Now in a beautiful 50th anniversary edition with a new foreword and afterword by the author this is the groundbreaking classic that introduced the theory that ancient Earth established contact with aliens Immediately recognized as a work of monumental importance Chariots of the Gods endures as proof that Earth has been visited repeatedly by advanced aliens from other worlds Here Erich von Däniken examines ancient ruins lost cities spaceports ufos and a myriad of hard scientific facts that point to extraterrestrial intervention in human history Most incredible of all however is von Däniken's theory that we are the descendants of these galactic pioneers and he reveals the archaeological discoveries that prove it The dramatic discoveries and irrefutable evidence An alien astronaut preserved in a pyramid Thousand year old spaceflight navigation charts Computer astronomy from Incan and Egyptian ruins A map of the land beneath the ice cap of Antarctica A giant spaceport discovered in the Andes Includes remarkable photos that document mankind's first contact with aliens at the dawn of civilization Chariots of the Gods? Erich von Däniken, 1973 **The Gods Never Left Us** Erich von Däniken, 2017-11-20 The Long Awaited Sequel to the Worldwide Best seller Chariots of the Gods When Chariots of the Gods was published 50 years ago it began a worldwide change in humanity's view of the cosmos In an era of the military space race Erich von Däniken boldly proclaimed that Earth had been visited by more advanced beings early in our history But prescientific man had no concept of space ships so he called their vehicles chariots and those driving the chariots became gods Over the next five decades von Däniken's more than 40 books built an ever stronger case for Earth being visited by extraterrestrial visitors And Chariots became an international best seller with 30 million copies sold in more than two dozen languages Also during that time the case for ET visitations millennia ago was being reexamined by contemporary UFO researchers who found evidence of modern visitations And von Däniken expanded his perspective to encompass the present Now he presents his long awaited sequel to Chariots of the Gods proclaiming that the gods never left us with all new material to show that ancient aliens are still with us The Gods Never Left Us contends that recent advancements in biotechnology astrophysics engineering and artificial intelligence not only give us a fresh perspective on his ancient astronaut theory but actually validates it We are as a race embarking on the exact same trajectory of our own interplanetary colonization just as von Däniken suggested Earth itself was colonized ETs are definitely at work today And that affects all of us Why do they do what they do What could an extraterrestrial species possibly gain from observing us in the same way we look at ants What have these strangers wanted for the past thousands of years Can't they leave us alone And what makes it so difficult for us to acknowledge the existence of these extraterrestrials That is what this book deals with Erich's newest book is a fascination journey from the ancient past into the present with a plethora of scientific evidence and documented research As always he adds his own to the point take on it all Readers may also like that his newest work moves in a slightly different direction from his past books A thoroughly enlightening and enjoyable Read

Please note This is a companion version not the original book Sample Book Insights 1 The astronomers estimate that there are about 4 500 stars that can be seen with the naked eye The telescope of a small observatory makes nearly two million stars visible and a modern reflecting telescope brings the light from thousands of millions more to the viewer But in the

colossal dimensions of the cosmos our stellar system is only a tiny part of an incomparably larger stellar system 2 There are 18 000 planets in our galaxy that are similar to the earth and it is estimated that two million different species of living creatures live on the earth The idea that life can only exist and develop on a planet like the earth is no longer true 3 The

universe is estimated to be between eight and twelve milliard years old Meteorites bring traces of organic matter under our microscopes Bacteria millions of years old wake up to new life Floating spores propelled by the light of a sun travel the universe and are captured by the gravitational field of a planet 4 We took 400 000 years to reach our present state and

stature Who can produce concrete proof that another planet did not provide more favorable conditions for the development of other or similar intelligences We are nothing but ants in the vast State of the universe *Twilight of the Gods* Erich von

With more than 140 photographs maps models and drawings Von Dniken applies the same fact filled analysis to Nazca an ancient isolated settlement deep in the Peruvian desert that launched his 1968 bestseller Chariots of the Gods He analyzes aerial views and closeups of extraordinary markings that stretch for miles forming complex designs noticeable only from the

Covenant a machine built by the astronaut gods In Signs of the Gods Erich von D niken travels far and wide around the globe to study the many strange phenomena that all point to one conclusion that many thousands of years ago Earth was visited by a race of superhuman powers and intelligence The questions he addresses along the way include Why are the religious sites in Greece all laid out in the same geometrical pattern a pattern which is repeated throughout the world Does the

extraordinary longevity of the ancient Sumerian kings mean that the Land of the Two Rivers was ruled by a race of supermen Could the first men have been produced by cloning Do the great ruins of Zimbabwe point to an impossibly detailed knowledge of astronomy Erich von D niken s Chariots of the Gods provoked a worldwide storm of controversy In Signs of the Gods he produces powerful arguments to support his theory of astronaut gods with evidence that is difficult to explain any other way Hear what he has to say with an open mind and you may find yourself agreeing with him Show less The Gold of the Gods Erich von Däniken,2011-06-17 Erich von D niken whose books have enthralled millions of readers around the world now presents astonishing new confirmation for his revolutionary theories Erich von D niken s The Gold of the Gods unveils new evidence of an intergalactic battle of the gods whose losers retreated to and settled Earth He explores a vast mysterious underworld of Ecuador caves filled with gold and writings in solid gold that go back to the time of the Great Flood bolstering von D niken s theory of a prehistoric earthly era of the gods *CHARIOTS OF THE GODS?* Gordon G.
