The Small Business Website Checklist Nick Loper,2014-01-19 Why Your Business Needs a Website If you re doing business today online OR offline you need a website It s that simple Every day Google completes more than 5 billion searches Think some of those people even just a tiny fraction might be searching for what you sell If you don t have a website how will they ever find you This book is about setting up your web presence the right way or optimizing your existing website to reach more visitors Ultimately it s about generating more traffic more leads and more sales and profit for your small business Who is This Book For This book is for small business owners who Have a website but feel like it s not delivering the results it could Need a website but aren t sure where to start or who to trust for advice Are confused and intimidated when dealing with technical problems or contracting with programmers Have you been overpromised or oversold by web developers in the past You re not alone In fact it happened to me It seems like there s an entire industry out there trying to milk small business owners out of their hard earned cash But you don t need to be another victim Armed with this checklist you ll have a working knowledge of all the important elements of a truly awesome website one that presents your brand to the world and helps achieve your goals online After all isn t that what it s all about Why This List There is no shortage of

resources when it comes to getting started online. Some of these are genuinely helpful and many of those will be mentioned in the pages ahead. But others just want to sell you some service you don't really need or get you to sign up for a hosting package through their affiliate link so they can earn a commission. Do they really have your best interest in mind? Many only give you part of the story or leave you with more questions than answers. What's missing is a comprehensive checklist for small businesses to use when evaluating their current website or when planning out their new site. That's where this book comes in. I'm a small business owner myself and have been working online for nearly 10 years. In that time I've come across too many amazing businesses with amazingly bad websites. Or worse, local businesses I wanted to find information on and patronize but that had no website at all. This checklist is my effort to help give small business owners the information they need to succeed online. From one entrepreneur to another, let's get started. What are you waiting for? Hit the Buy Now button and get started today.

Create Your Own Website The Easy Way Alannah Moore, 2016-06-02

Every small business or organisation needs a website whether it is a simple online portfolio or a complex online shop. Expert web design teacher Alannah Moore makes this subject accessible for everyone, even those with no technical or design experience. Avoiding technical language, Alannah provides a summary of the web platforms available, covering among others WordPress, Squarespace, Weebly, and Shopify. From these, the reader can choose the right platform for them and very quickly get up and running. Drawing on her vast experience of what a novice website builder really needs to know, Alannah covers all the topics they will come across in their online experience: how to choose a good domain name, what content you need for your site, how to work with images and even create your own logo. The reader will also learn how to integrate social media and a blog so they are set up and in control of their virtual presence from every aspect. This is the perfect book for anyone who doesn't want to pay for an expensive web designer. In Alannah's safe and capable hands, they will find the process of building their site easy and enjoyable, and they'll soon have a successful online presence.
