Global Perspective on Issues and Trends in Educational Translanguaging Bautista, Jude Cañero, Kim, Jean, 2025-05-29 The growing superdiversity around the world now appears to be the norm In traditional English speaking inner circle nations it is becoming increasingly rare to find classrooms with students who come from monocultural and monolingual backgrounds However teaching practices remain based on Anglocentric standards and perspectives even when most of the English speakers in the world are no longer just the monolingual speakers of the language Research in bilingualism and multilingualism reverberate the potential of translanguaging as a pedagogical practice This is to leverage all the linguistic cultural and semiotic resources of learners so that they can actively engage in the language literacy and content area learning processes in the classroom However even though it has gained ground in theory and research it has not been upheld in instructional practice especially in the Anglophone nations While some regions view translanguaging as a pathway to educational justice others face barriers such as limited resources administrative constraints or lack of teacher training Despite its promise concerns remain around the selective use of languages and the risk of reinforcing existing

linguistic hierarchies Global Perspective on Issues and Trends in Educational Translanguaging explores translanguaging pedagogies from both monolingual English speaking contexts and multilingual and multicultural contexts It examines a monolingual multilingual pairing of theoretical research and practical perspectives from around the world assessing how translanguaging pedagogies are practiced and researched worldwide This book covers topics such as indigenous studies migrant learners and pedagogy and is a useful resource for educators language experts academicians researchers and scientists

Language Learning Theories Amin Shahini,2025-09-26 This book demystifies language learning theories and offers clear explanations interactive exercises and summary tables to help students connect theory with practice It explores key frameworks such as Behaviorism Innatism and Constructivism as well as modern perspectives like Chaos Complexity Theory Through an engaging structure each chapter unpacks fundamental theories debates and real world applications and highlights critical topics like learner diversity automaticity and sociocultural influences The book also examines the impact of language learning theories on teaching strategies classroom materials and curriculum design Practical examples in class activities and digital resources including YouTube references enhance understanding and encourage active learning Designed for undergraduate graduate and even postgraduate students this essential guide balances academic rigour with accessibility making it a valuable resource for those studying second language acquisition applied linguistics and language teaching Whether new to the field or a specialist readers will gain the tools to critically engage with research and classroom methodologies

Health and Science Journalism in the Twenty-First Century Tamar Ginossar,Sayyed Fawad Ali Shah,2025-03-15 This edited volume explores the evolving practices and essential role of health and science journalists as they cover topics like conflict displacement and global pandemics Amid a changing media landscape and new communication technologies journalists in various countries report facing similar key challenges stressors and threats to professionalism Contributors identify and explore these shared challenges including funding cuts unrealistic expectations for productivity public mistrust and disregard for facts and increasingly polarized coverage and they note that these challenges are further intensified for journalists living and working in the Global South Factors like the COVID 19 pandemic and geopolitical conflict continue to disrupt economic and social systems and increase global inequities including health outcomes making the role of health and science journalists more crucial than ever Contributors to this volume provide diverse perspectives and methodologies across a spectrum of communities and regions unpacking the numerous roles that journalists and media organizations play during crises with chapters investigating topics including newsroom experiences perceived influences on their professional identities and the use of AI in journalism Ultimately this book illustrates the dramatic changes and new challenges to health and science journalism in the twenty first century and highlights the resilience and adaptability of these journalists as they navigate unprecedented challenges to inform the public Scholars of journalism communication public health sociology and political science will find this book of particular interest

The Transformative Nature of Food

Dolly Daou, Melanie Sarantou, 2026-01-26 This book explores the process of food migration adaptation and connections to cultural identities through the lens of food design research Using design practice and methodology it creates an awareness for the health and well being of humanity s ecosystems through identity and adaptation The book examines the evolving relationship between people and food exploring how food transforms when it migrates to new cultures adapting to local environments ingredients and practices This leads to the creation of hybrid cultural practices and identities Food adaptation affects the three integrated aspects of personal social and environmental connectivity shaping individual and national identities while influencing sustainable food choices and practices The book analyses food transformation from these three integrated perspectives using examples from a variety of global contexts Key questions include how food adaptation reconciles with new identities and the impact of cultural memories on food practices and how can food design promote sustainable transformative food cultures Contributors from diverse backgrounds will use design to question and foster the awareness of food s role in human health well being environmental sustainability and ecology The Transformative Nature of Food will be of value to academics and postgraduate students in food design cultural studies and environmental sustainability programmes as well as to professionals in cultural and non profit sectors Government agencies focused on migration tourism agriculture and local development will also find this research valuable for policy and programme development

Bender, Alex Hanna, 2025-05-13 A smart incisive look at the technologies sold as artificial intelligence the drawbacks and pitfalls of

technology sold under this banner and why it's crucial to recognize the many ways in which AI hype covers for a small set of power hungry actors at work and in the world. Is artificial intelligence going to take over the world? Have big tech scientists created an artificial lifeform that can think on its own? Is it going to put authors, artists, and others out of business? Are we about to enter an age where computers are better than humans at everything? The answer to these questions, linguist Emily M. Bender and sociologist Alex Hanna make clear, is no, they wish. LOL, and definitely not. This kind of thinking is a symptom of a phenomenon known as AI hype. Hype looks and smells fishy. It twists words and helps the rich get richer by justifying data theft, motivating surveillance capitalism, and devaluing human creativity in order to replace meaningful work with jobs that treat people like machines. In *The AI Con*, Bender and Hanna offer a sharp, witty, and wide-ranging take-down of AI hype across its many forms. Bender and Hanna show you how to spot AI hype, how to deconstruct it, and how to expose the power grabs it aims to hide. Armed with these tools, you will be prepared to push back against AI hype at work, as a consumer in the marketplace, as a skeptical newsreader, and as a citizen holding policymakers to account. Together, Bender and Hanna expose AI hype for what it is: a mask for Big Tech's drive for profit with little concern for who it affects. *PC AI*, 2000. **The Whole Earth Online Almanac**, Don Rittner, 1993. A reference source to thousands of electronic forums, libraries, and databases worldwide that users can access inexpensively through online services.
