In Peace And War A History Of The Us Merchant Marine Academy At Kings Point:

In Peace and War Jeffrey L. Cruikshank, 2007-09-01 Founded in 1937 the U S Merchant Marine Academy at Kings Point New York has trained more than 20 000 professional mariners and in the process has weathered many turbulent times In Peace and War draws on extensive research including archival work and interviews with past and present day administrators alumni and current midshipmen to document the Academy s evolution from its beginnings to the present This balanced and comprehensive work details the vision and contributions of determined leaders both at Kings Point and in Washington who shaped the Academy It describes the evolution of the U S merchant marine and explains how a tragic fire aboard the passenger ship SS Morro Castle off the coast of New Jersey in which the shameful behavior of the ship s crew caused the unnecessary deaths of many passengers led to the passage of the Merchant Marine Act in 1936 which paved the way for the Academy It details how Kings Point has adjusted its training and priorities to meet the evolving needs of the nation For example visual signaling training was added to the curriculum in response to the growing threat from German subs in the months leading up to World War II In June 1940 Cadet William O Reilly s frantic signaling from the SS Washington a vessel carrying more than 1 700 refugees averted its sinking by a hostile submarine From its inception Kings Point has used the high seas as a campus with its students shipping out for a full year on commercial vessels to receive a thorough grounding in practical seamanship In wartime this has meant that Kings Point cadets often have found themselves in harm s way and some have paid the ultimate price Between 1942 and 1945 for example 142 Kings Point cadets were lost in action and countless others survived attacks all around the world At other times the conflict has been closer to home The book also describes the Academy s invaluable service after 9 11 when Kings Point personnel and vessels worked around the clock to ferry fire fighters and rescue personnel to and from nearby Ground Zero in Lower Manhattan Using compelling examples In Peace and War conveys the educational experience at the Academy today including the regiment of midshipmen and the required Sea Year both of which sharply distinguish Kings Point from almost all other educational institutions It uses the stories of ten graduates in Norfolk Virginia to explain what today s merchant marine is and to illustrate the wide range of careers and leadership roles for which the Academy prepares its students Finally the book details the dedication of the many alumni and other supporters who are committed to continuing Kings Point s contributions to the nation and the maritime industry and to preserving the proud traditions of this venerable institution

Renaissance Lawman Martin Alan Greenberg, 2020-02-03 Renaissance Lawman The Education and Deeds of Eliot H Lumbard details the life education and public service career of Eliot Howland Lumbard A lawyer who most of his life lived and worked in Manhattan and whose legal career spanned more than fifty years beginning in the early 1950s Lumbard is easily identified as a renaissance lawman for having gained considerable expertise in the operations of the political and justice systems and for proceeding to capitalize on this knowledge to become both an advocate and initiator of progressive reforms for criminal justice His contributions on behalf of

public safety have been largely forgotten but throughout this intriguing biography Martin Alan Greenberg successfully juxtaposes many of Lombard's professional activities with many of the major historical developments and challenges of his time. The chronicled events emphasize what motivated the people in his generation to behave as they did since the world today is a much different place than what Americans were experiencing in the first three decades after WW II. Cultural and technological changes have combined to make our present day world quite different from over a half century ago.

Renaissance Lawman proves to be especially rewarding to a wide range of readers interested in police work, criminal justice history, public service leadership and legal ethics. There are no other comparable books on the market. Lombard certainly had a unique legal career and his impactful contributions have seldom if ever been duplicated even if his contributions on behalf of public safety have been largely forgotten.

In Peace and War Kenneth J. Hagan, Michael McMaster, 2008-06-30 This 30th anniversary edition of a highly acclaimed classic covers the entire span of the American naval experience from the Revolution to the present. It avoids descending into a dry chronology of naval battles and instead focuses on the use of the navy as a diplomatic instrument in peacetime and wartime. When dealing with war, the authors sketch in the political background and explain the grand strategy before dealing with individual battles and leaders. Each essay about the navy in war concludes with an assessment of the importance of naval operations to the outcome of the war and the significance of the war to America's role in world affairs. This book also traces changes in administrative premises and style, the evolution of technology and the strategic revolutions characteristic of American naval history. This fully revised 30th anniversary edition includes new chapters by current experts in the field so as to continue its relevance in the 21st century. An entirely new and up to date bibliography containing secondary sources help make this title better than ever.
