

CHAPTER 4: FINANCIAL MANAGEMENT BASICS

Financial Management – involves strategically planning, organizing, directing, and controlling an organization's financial resources to achieve its objectives efficiently and effectively. It encompasses activities such as budgeting, forecasting, cash flow management, investment decisions, risk management, and financial reporting.

Goal of Financial Management – to maximize shareholder wealth while ensuring the long-term sustainability and growth of the organization.

SCOPE AND ROLE OF FINANCIAL MANAGEMENT

Financing Decision – deciding how to finance long term investment and working capital, which deals with the company's day-to-day operation.

Investing decision – relates to the decision made by the investors or the top level management with respect to the amount of funds to be deployed in the investment opportunities.

Operating Decision – Deal with the company's daily operations, especially on how to finance working capital accounts such as accounts receivable and inventories.

Dividend Policies – dividend is a part of profits available for distribution to equity shareholders. The finance manager must decide whether the firm should distribute all the profits, retain them, or distribute a portion and retain the balance.

Is accounting and finance the SAME?
