animates all existence the cosmos the solar system the earth and human bodies Harmonious living requires building in accord with local chi streams good health requires replenishment and manipulation of internal chi flow and a beneficent afterlife is enhanced when buried in conformity with chi directions Traditional Chinese Medicine is based on the proper manipulation of internal chi by acupuncture tai chi and qigong exercise and herbal dietary supplements Matthews has produced another tour de force that will repay close study by students scientists and all those concerned to understand science culture and the science culture nexus Harvey Siegel Philosophy University of Miami USA With great erudition and even greater fluidity of style Matthews introduces us to this now world wide belief system Michael Ruse Philosophy Florida State University USA The book is one of the best research works published on Feng Shui Wang Youjun Philosophy Shanghai Normal University China The history is fascinating The analysis makes an important contribution to science literature James Alcock Psychology York University Canada This book provides an in depth study of Feng Shui in different periods considering its philosophical historical and educational dimensions especially from a perspective of the demarcation problem between science and pseudoscience Yao Dazhi Chinese Academy of Sciences China

**Divine Enterprise** Lise McKean, 1996-05-15 Through shrewd marketing and publicity Hindu spiritual leaders can play powerful roles in contemporary India as businessmen and government officials Focusing on the organizations and activities of Hindu ascetics and gurus Lise McKean explores the complex interrelations among religion the political economy of India and global capitalism In this close look at the business of religion McKean traces the ideological and organizational antecedents to the Hindu nationalist movement The Indian state's increasing patronage of Hindu institutions makes competition for its support greater than ever Using materials from guru's publications the press and extensive field research McKean examines how participation by upper caste ruling class groups in the Divine Life Society and other Hindu organizations further legitimates their own authority With a remarkable selection of photographs and advertisements showing icons of spirituality used to sell commodities from textiles to cement to comic books McKean illustrates the pervasive presence of Hindu imagery in India's burgeoning market economy She shows how gurus popularize Hindu nationalism through imagery such as the goddess Mother India and her martyred sons and daughters

are current buzzwords that have some bearing on the freethought worldview such as metrosexual The names of many people whose lives or work reflect freethought principles form a major portion of the entries Finally a humanist calendar is included on which events of interest to freethinkers are noted This unique accessible and highly informative work will be a welcome addition to the libraries of open minded people of all philosophic persuasions     Secularity and Non-Religion Elisabeth Arweck, Stephen Bullivant, Lois Lee, 2016-03-16 The present collection brings together a set of essays which shed light on recent research into non religion secularity and atheism topics which have been emerging as important areas of current research in a number of different disciplines The essays cover a wide span in terms of the various stances they discuss secular atheist non religious the settings in which these topics are relevant families wider society politics demography and the different perspectives which relate to socialisation and social relations belief acquisition discrimination Written by authors from a variety of national settings and academic disciplines the collection presents a range of methodologies combining theoretical approaches with quantitative and qualitative research findings The authors address issues related to an important academic field which had been neglected for some time but which has been made relevant by the increasing percentage of people professing a non religious stance This collection represents a major contribution to this area of academic research not only because it puts the themes of non religion and secularity firmly on the academic map but also because it offers a variety of different viewpoints and aims to bring clarity into the use of concepts and terminology The authors make important contributions to the emerging body of research in this area and point out areas where further research is needed The first essay provides a thorough introduction to this field taking stock of the work done so far highlighting the overarching issues and embedding the essays in the wider context of existing literature This book was originally published as a special issue of the Journal of Contemporary Religion     **Tantrism** Benjamin Walker, 1982
