Conversations With Myself Nelson Mandela:

Conversations with Myself Nelson Mandela, 2010-10-11 Nelson Mandela is widely considered to be one of the most inspiring and iconic figures of our age. Now after a lifetime of taking pen to paper to record thoughts and events, hardships and victories, he has bestowed his entire extant personal papers which offer an unprecedented insight into his remarkable life. A singular international publishing event, *Conversations with Myself* draws on Mandela's personal archive of never before seen materials to offer unique access to the private world of an incomparable world leader. Journals kept on the run during the anti-apartheid struggle of the early 1960s, diaries and draft letters written in Robben Island and other South African prisons during his twenty-seven years of incarceration, notebooks from the post-apartheid transition, private recorded conversations, speeches and correspondence written during his presidency: a historic collection of documents archived at the Nelson Mandela Foundation is brought together into a sweeping narrative of great immediacy and stunning power. An intimate journey from Mandela's first stirrings of political consciousness to his galvanizing role on the world stage, *Conversations with Myself* illuminates a heroic life forged on the front lines of the struggle for freedom and justice. While other books have recounted Mandela's life from the vantage of the present, *Conversations with Myself* allows for the first time unhindered insight into the human side of the icon.

Imagining Vernacular Histories Mobolanle Ebunoluwa Sotunsa, Abikal Borah, 2020-08-17 *Imagining Vernacular Histories* is centered on the idea of engaging

with indigenous African cosmologies that signal at pluriversality In conversation with Toyin Falola's reading of the African pluriverse and his exploration of the idea of ritual archives the contributors to this volume rethink the historical archive in search of vernacular histories Simultaneously they recognize the contributions from various other disciplines in pluralizing the term vernacular The book brings together a wide range of topics such as reflections on African historiography the relationship between memory history and literature gender relations and the construction of historical archives While appropriating Falola's conception of vernacular histories the contributors collectively argue that pluriversality and ritual archives can potentially rescue African historical and creative scholarship from the sustained practices of epistemicide Simultaneously *Imagining Vernacular Histories* focuses on the emerging interdisciplinary conversations on constructing the pluriverse as well as on the geopolitics of knowledge production Through a critical appreciation of Falola's engagement with the ideas of postcoloniality decolonizing epistemologies and pluriversality this book locates his scholarship in relation to postcolonial theory emerging from the Global South
