Corporate Finance Fundamentals Ross Asia Global Edition:

Fundamentals of Corporate Finance, 2012 This text builds on the tradition of excellence that instructors and students have come to associate with the Ross Westerfield and Jordan series. It blends comprehensive coverage of modern research with an emphasis on practical applications. Written with one strongly held principle that corporate finance should be developed and taught in terms of a few integrated powerful ideas, three basic themes became the central focus of the book. This Asia Global Edition aims to meet the significant gap for a book with Asian examples and internationalized Asian content. From back cover: The Elgar Companion to Financial Economics Joshua Y. Abor, 2025-11-04 This insightful Companion explores how economic agents especially individuals and firms make financial and investment decisions over time under conditions of uncertainty in the market. Joshua Yindenaba Abor provides a comprehensive examination of financial economics discussing critical areas such as corporate finance, asset pricing, behavioural finance, digital finance, and banking, climate finance, and financial inclusion. Comparative Third Sector Governance in Asia Samiul Hasan, Jenny Onyx, 2008-01-08 Non-profit organizations, NGOs, and other third sector organizations are increasingly playing a central role in achieving and sustaining a prosperous economy and a just civil society in countries around the world. While their importance is widely acknowledged, their sustainability is not guaranteed and depends to a large extent on effectiveness and accountability of their governance. In Europe and North America, the governance of these organizations, setting directions and strategies, identifying and ensuring type and quality of goods and services, defining and maintaining relations among the stakeholders relating the organization to its wider society, is generally seen as the role of the board of directors or the governing board. In other parts of the world, specifically Asia, not much is known about the organization and running of these groups. The book, the first of its kind, establishes new theory and knowledge in the area of third sector organizations, TSOs, in Asia. The main purpose of this book is to draw the attention of Asia's TSOs to the importance of good governance. It documents a variety of approaches and identifies socio-cultural, economic, and political dynamics and impacts of different models of TSO governance. The combined information from the contributions in this work will ensure the sustainability of TSOs throughout Asia.
