The Transit of Empire Jodi A. Byrd, 2011-09-06 Examines how Indianness has propagated U S conceptions of empire

*The Transit of Empire* Jodi A. Byrd, 2011 Examines how Indianness has propagated U S conceptions of empire *The Transit of Empire* Jodi A. Byrd, 2011 In 1761 and again in 1768 European scientists raced around the world to observe the transit of Venus a rare astronomical event in which the planet Venus passes in front of the sun In *The Transit of Empire* Jodi A Byrd explores how indigeneity functions as transit a trajectory of movement that serves as precedent within U S imperial history Byrd argues that contemporary U S empire expands itself through a transferable Indianness that facilitates acquisitions of lands territories and resources Examining an array of literary texts historical moments and pending legislations from the Cherokee Nation of Oklahoma s vote in 2007 to expel Cherokee Freedmen to the Native Hawaiian Government Reorganization bill Byrd demonstrates that inclusion into the multicultural cosmopolis does not end colonialism as it is purported to do Rather that inclusion is the very site of the colonization that feeds U S empire Byrd contends that the colonization of American Indian and indigenous nations is the necessary ground from which to reimagine a future where the losses of indigenous peoples are not only visible and in turn grieveable but where indigenous peoples have agency to transform life on their own lands and on their own terms Provided by publisher **The Oxford Handbook of the History of Education** John L. Rury, Eileen Tamura, 2019 This handbook offers a global perspective on the historical development of educational institutions systems of schooling educational ideas and educational experiences Its 36 chapters consider the field s changing scholarship while examining particular national and regional themes and offering a comparative perspective Each also provides suggestions for further research and analysis *The ^AOxford Handbook of American Indian History* Frederick E. Hoxie, 2016-04-13 *The Oxford Handbook of American Indian History* presents the story of the indigenous peoples who lived and live in the territory that became the United States It describes the major aspects of the historical change that occurred over the past 500 years with essays by leading experts both Native and non Native that focus on significant moments of upheaval and change place based histories of major centers of indigenous occupation and overviews of major aspects of Indian community and national life *Colonial Lives of Property* Brenna Bhandar, 2018-05-03 In *Colonial Lives of Property* Brenna Bhandar examines how modern property law contributes to the formation of racial subjects in settler colonies and to the development of racial capitalism Examining both historical cases and ongoing processes of settler colonialism in Canada Australia and Israel and Palestine Bhandar shows how the colonial appropriation of indigenous lands depends upon ideologies of European racial superiority as well as upon legal narratives that equate civilized life with English concepts of property In this way property law legitimates and rationalizes settler colonial practices while it racializes those deemed unfit to own property The solution to these enduring racial and economic inequities Bhandar demonstrates requires developing a new political imaginary of property in which freedom is connected to shared practices of use and community

rather than individual possession      **Indigenomicon** Jodi A. Byrd, 2025-10-03 Jodi A Byrd examines the differences between settler colonial studies and Indigenous studies by bringing video game studies into conversation with Black studies queer studies and Indigenous feminist critique      **Solidarity and the Palestinian Cause** Zahi Zalloua, 2023-01-12 Zahi Zalloua provides the first examination of Palestinian identity from the perspective of Indigeneity and Critical Black Studies Examining the Palestinian question through the lens of settler colonialism and Indigeneity this timely book warns against the liberal approach to Palestinian Indigeneity which reinforces cultural domination and urgently argues for the universal nature of the Palestinian struggle Foregrounding Palestinian Indigeneity reframes the Palestinian Israeli conflict as a problem of wrongful dispossession a historical harm that continues to be inflicted on the population under the brutal Occupation of the West Bank and Gaza At the same time in a global context marked by liberal democratic ideology such an approach leads either to liberal tolerance the minority is permitted to exist so long as their culture can be contained within the majority order or racial separatism that is appeals for national independence typically embodied in the two state solution Solidarity and the Palestinian Cause not only insists that any analysis of Indigeneity's purchase must keep this problem of translation in mind but also that we must recast the Palestinian struggle as a universal one As demonstrated by the Palestinian support for such movements as Black Lives Matter and the reciprocal support Palestinians receive from BLM activists the Palestinian cause fosters a solidarity of the excluded This solidarity underscores the interlocking global struggles for emancipation from racial domination and economic exploitation Drawing on key Palestinian voices including Edward Said and Larissa Sansour as well as a wide range of influential philosophers such as Slavoj i ek Frantz Fanon and Achille Mbembe Zalloua brings together the Palestinian question Indigeneity and Critical Black Studies to develop a transformative anti racist vision of the world      *Tip of the Spear* Alfred Peredo Flores, 2023-09-15 In *Tip of the Spear* Alfred Peredo Flores argues that the US occupation of the island of Gu han Guam one of the most heavily militarized islands in the western Pacific Ocean was enabled by a process of settler militarism During World War II and the Cold War Gu han was a launching site for both covert and open US military operations in the region a strategically significant role that turned Gu han into a crucible of US overseas empire In 1962 the US Navy lost the authority to regulate all travel to and from the island and a tourist economy eventually emerged that changed the relationship between the Indigenous CHamoru population and the US military further complicating the process of settler colonialism on the island The US military occupation of Gu han was based on a co constitutive process that included CHamoru land dispossession discursive justifications for the remaking of the island the racialization of civilian military labor and the military's policing of interracial intimacies Within a narrative that emphasizes CHamoru resilience resistance and survival Flores uses a working class labor analysis to examine how the militarization of Gu han was enacted by a minority settler population to contribute to the US government's hegemonic presence in Oceania      Other Worlds Here Theresa Warburton, 2021-04-15 *Other Worlds Here* Honoring Native Women's Writing in

Contemporary Anarchist Movements examines the interaction of literature and radical social movement exploring the limitations of contemporary anarchist politics through attentive engagement with Native women's literatures Tracing the rise of New Anarchism in the United States following protests against the World Trade Organization in 1999 interdisciplinary scholar Theresa Warburton argues that contemporary anarchist politics have not adequately accounted for the particularities of radical social movement in a settler colonial society As a result activists have replicated the structure of settlement within anarchist spaces All is not lost however Rather than centering a critical indictment of contemporary anarchist politics Other Worlds Here maintains that a defining characteristic of New Anarchism is its ability to adapt and transform Through close readings of texts by Native women authors Warburton argues that anarchists must shift the paradigm that another world is possible to one that recognizes other worlds already here stories networks and histories that lay out methods of building reciprocal relationships with the land and its people Analyzing memoirs poetry and novels by writers including Deborah Miranda Elissa Washuta Heid E Erdrich Janet Rogers and Leslie Marmon Silko Other Worlds Here extends the study of Native women's literatures beyond ethnographic analysis of Native experience to advance a widely applicable contemporary political critique [International Encyclopedia of Human Geography](#) ,2019-11-29 International Encyclopedia of Human Geography Second Edition Fourteen Volume Set embraces diversity by design and captures the ways in which humans share places and view differences based on gender race nationality location and other factors in other words the things that make people and places different Questions of for example politics economics race relations and migration are introduced and discussed through a geographical lens This updated edition will assist readers in their research by providing factual information historical perspectives theoretical approaches reviews of literature and provocative topical discussions that will stimulate creative thinking Presents the most up to date and comprehensive coverage on the topic of human geography Contains extensive scope and depth of coverage Emphasizes how geographers interact with understand and contribute to problem solving in the contemporary world Places an emphasis on how geography is relevant in a social and interdisciplinary context **UC Irvine Law Review** ,2014 **Amerasia Journal** ,2015 *Western American Literature* ,2014

**Enlarging the Democratic Possible** Alexander Keller Hirsch,2011 **Empire's Tracks** Manu Karuka,2019-01-29 Empire's Tracks boldly reframes the history of the transcontinental railroad from the perspectives of the Cheyenne Lakota and Pawnee Native American tribes and the Chinese migrants who toiled on its path In this meticulously researched book Manu Karuka situates the railroad within the violent global histories of colonialism and capitalism Through an examination of legislative military and business records Karuka deftly explains the imperial foundations of U S political economy Tracing the shared paths of Indigenous and Asian American histories this multisited interdisciplinary study connects military occupation to exclusionary border policies a linked chain spanning the heart of U S imperialism This highly original and beautifully wrought book unveils how the transcontinental railroad laid the tracks of the U S Empire *Boundary 2* ,2012 **Red**

**Facing Empire** Kate Fullagar, Michael A. McDonnell, 2018-11-01 A comprehensive volume that interrogates European imperialism from the perspective of indigenous experiences The contributors to Facing Empire reimagine the Age of Revolution from the perspective of indigenous peoples Rather than treating indigenous peoples as distant and passive players in the political struggles of the time this book argues that they helped create and exploit the volatility that marked an era while playing a central role in the profound acceleration in encounters and contacts between peoples around the world Focusing in particular on indigenous peoples experiences of the British Empire this volume takes a unique comparative approach in thinking about how indigenous peoples shaped influenced redirected ignored and sometimes even forced the course of modern imperialism The essays demonstrate how indigenous shaped local exchanges cultural relations and warfare provoked discussion and policymaking in London as much as it did in Charleston Cape Town or Sydney Facing Empire charts a fresh way forward for historians of empire indigenous studies and the Age of Revolution and shows why scholars can no longer continue to exclude indigenous peoples from histories of the modern world These past conflicts over land and water labor and resources and hearts and minds have left a living legacy of contested relations that continue to resonate in contemporary politics and societies today Covering the Indian and Pacific Oceans Australia and West and South Africa as well as North America this book looks at the often misrepresented and underrepresented complexity of the indigenous experience on a global scale Contributors Tony Ballantyne Justin Brooks Colin G Calloway Kate Fullagar Bill Gammage Robert Kenny Shino Konishi Elspeth Martini Michael A McDonnell Jennifer Newell Joshua L Reid Daniel K Richter Rebecca Shumway Sujit Sivasundaram Nicole Ulrich

*The Holy Land in Transit* Steven Salaita, 2006-11-03 Steven Salaita's ambitious and thought provoking work compares the dynamics of settler colonialism in the United States related to Native Americans with the circumstances in Israel related to the Palestinians revealing the way in which politics influences literary production The author's original approach is based not on similarities between the two disparate settler regions but rather on similarities between the rhetoric employed by early colonialists in North America and that employed by Zionist immigrants in Palestine Meticulously examining histories theories and literary depictions of colonialism and its interethnic dialects Salaita identifies the commonalities in the myths employed by both groups as well as the counter discourse cultivated in the literature of resistance by native peoples He complements his analysis with personal observations of Palestinians in Lebanese refugee camps where he encountered a sympathetic perception of American Indians The Holy Land in Transit presents one of the first intercommunal studies to assess the ways in which indigenous authors react to analogous colonial dynamics With great perception and energy the author offers a fresh contribution to an emerging frame of reference for historical political literary and cultural investigation
