Religie als sociale constructie. Een

menswetenschappelijke rondleiding Guido Dierickx, 2015-09-07 De religie geeft aanleiding tot vele vaak heftige debatten in academische en minder academische kringen Bij nader toezien gaan die debatten meestal over de sociale constructie die de religieuze beleving bevordert of verzwakt en niet over de kern van de religie de religieuze beleving Ze gaan over de omstandigheden die de participatie aan de religieuze gemeenschap en cultuur ondersteunen of hinderen die haar geloofwaardigheid ondermijnen of bevestigen Dit werk wil een aantal van die debatten verhelderen met behulp van een sociologische zienswijze en de beschikbare empirische gegevens Daarmee is alvast n thema aangestipt dat herhaaldelijk zal weerkeren het onderscheid tussen de theologische en de filosofische zienswijze en de sociologische en de menswetenschappelijke De stelling van de auteur luidt dat in debatten over religie de theologisch filosofische zienswijze zij het vaak in haar ge vulgariseerde vorm te veel aan bod komt en de sociologische te weinig Dit geldt paradoxaal genoeg zowel voor de vrienden als voor de vijanden van de religie Dat is begrijpelijk omdat levensbeschouwelijke debatten nu eenmaal heet zijn en meer aantrekkingskracht hebben dan menswetenschappelijke debatten die veeleer koel zijn

The Psychology of Religion Ralph W. Hood, 1996 This volume presents the most comprehensive survey of the empirical literature on the psychology of religion available today Like its predecessor the second edition of The Psychology of Religion emphasizes scientific work that is moving the psychology of religion into the mainstream of academic psychology rather than broad interpretive and conceptual discussions of religion Ideally structured as a text the volume s chapters each integrate findings according to the theory or theories that best illuminate them allowing instructors the flexibility to assign any or all of the chapters according to the design of their courses Completely revised and updated this second edition incorporates data on the impact of family and schools into an expanded chapter on religious socialization and also includes a new discussion of religion and coping Throughout the text is greatly enhanced by the wealth of empirical research that has been conducted during the past decade
