The Theory Of Attraction:

The Theory of Attraction Delphine Dryden, 2012-07-09 Camilla can set her watch by her hunky rocket scientist neighbor who jogs past her window each day She relishes each glimpse of his shirtless abs and is dying to see more But it s hard to connect with a man who doesn t seem to know she exists Ivan feels at home in the lab not in social situations When he finally approaches his attractive neighbor it s not for a date he wants tutoring in how to behave at an important fundraiser Ivan doesn t expect the chemistry between them to be quite so explosive and is surprised when Cami actually accepts his proposal to embark on a series of lessons Cami soon discovers Ivan s schedule isn t the only thing he likes to be strict about he needs to be charge in the bedroom as well She s shocked at how much she comes to enjoy her submissive side but wonders if a real relationship is in the equation 47 000 words Propositions in the Theory of Attraction William Thomson Kelvin (Lord. [from old catalogue].), *The Theory of Attraction* Delphine Dryden, Christine D'Abo, Jodie Griffin, 2012 This is what happened I met him at the candy store He turned and smiled at me and I was surprised enough to smile back This was not a children s candy store mind you this was the kind of place you went to buy expensive imported chocolate truffles for your boss s wife because you felt guilty for having sex with him when you were both at a conference in Milwaukee Hypothetically speaking of course I ve been hit on plenty of times mostly by men with little finesse who thought what was between their legs made up for what they lacked between their ears Sometimes I went home with them anyway just because it felt good to want and be wanted even if it was mostly fake The problem with wanting is that it s like pouring water into a vase full of stones It fills you up before you know it leaving no room for anything else I don t apologize for who I am or what I ve done in or out of bed I have my job my house and my life and for a long time I haven t wanted anything else Until Dan Until now *Notes on books* Longmans, Green and co, 1903 **Radiant Energy, a Working Power in the Mechanism of the Universe ...** R.
