Theologische Prinzipienlehre Bausteine Zur Fundamentaltheologie Von Josef Kardinal Ratzinger:

Benedict XVI: A Life Volume One Peter Seewald, 2020-12-10 The first volume of Peter Seewald's long awaited authoritative biography of Pope Benedict XVI. By any reckoning the papacy of Pope Benedict XVI was extraordinary with moments of high drama. Not the least of these was his resignation from office in February 2013, the first papal resignation in almost 600 years. But who was Joseph Ratzinger? In this definitive biography based on meticulous historical research and many hours of taped interviews with his subject, Peter Seewald shows the exceptional circumstances in which the exceptionally talented son of a Bavarian policeman became the first German pope for 950 years. In this first volume covering the years 1927-1965 we witness Joseph Ratzinger's early days living above his father's police station. Ratzinger came to adulthood through the years of National Socialism. Though hostile to the rise of Hitler, his family knew well about Dachau, and Ratzinger himself was conscripted into the Hitler Youth. Joseph Ratzinger proved to be a man of exceptional intellectual gifts, and by the time of the Second Vatican Council (1962-1965) he was already noted as one of the outstanding intellectuals present and was nominated a peritus or theological expert. This was also the time of the start of his friendship with the Swiss theologian Hans Küng, who was to become his nemesis. Of his predecessor Pope Francis, he has said: Pope Benedict was a great Pope, great for the penetration of his intelligence, great for his important contribution to theology, great for his love of the Church and human beings, great for his virtues and faith. Even in this first volume we begin to understand how this came to be true.

Engaging Luther Olli-Pekka Vainio, 2010-04-26 The Reformer Martin Luther is the source of endless fascination and dispute. Not only his antagonists but also his supporters have created a host of representations of his thought. On the one hand, Catholic and other similar voices have accused Luther of being the major agent in the birth of modern secularism. On the other hand, Lutherans themselves are divided on the meaning of Reformation. In view of all these interpretations and dismissals of Luther and the Lutheran Reformation, it requires a certain boldness to claim that Luther's theology is intellectually fascinating and contains exceptional resources. This is precisely what the present volume claims. The studies collected in this volume aim at showing in which sense Luther remains a fully Catholic and genuinely Augustinian theologian who is not so much a forerunner of problematic modernity as a representative of classical Christianity. At the same time, Luther's theology contains ideas that can be made fruitful in dialogue with currents like communitarianism or Radical Orthodoxy. The volume consists of articles written by scholars affiliated with the project known as the New Finnish Interpretation of Luther. The topics include Luther's theological anthropology, Trinity, Christology, sacraments, faith, theology of the cross, the Virgin Mary, sexuality, music, and the spiritual reading of the Holy Scriptures.

The Analogy of Being Thomas Joseph White, 2011 Does all knowledge of God come through Christ alone or can human beings discover truths about God philosophically *The Analogy of Being* assembles essays by expert Catholic Protestant and Orthodox theologians to examine the relationship between divine revelation in the person of Jesus Christ and the philosophical capacities of natural reason These essays were inspired by the lively decades long debate between Karl Barth and Erich Przywara which was first sparked in 1932 when

Barth wrote that the use of natural theology in Roman Catholic thinking was the invention of the Antichrist. The contributors to *The Analogy of Being* analyze and reflect on both sides of Barth and Przywara's spirited discourse offering diverse responses to a controversy reaching to the very core of Christian faith and theology. It would be difficult to match the range and quality of commentators on this historic exchange between a Catholic philosopher and a renowned Reformed theologian on a subject of enduring significance given the centrality of analogy to any issue in philosophical theology. Moreover, the contributions exhibit how the issues have come to span ecclesial boundaries as their import has progressively evolved. A splendid collection. David Burrell, C.S.C., Uganda Martyrs University. A profound testimony to the enduring significance of the *analogia entis* debate between Erich Przywara and Karl Barth. Hans Boersma, Regent College. In a fresh ecumenical context, this extraordinary volume rekindles the mid-twentieth century encounter between ressourcement thinkers and metaphysical theology. The voices of Przywara, Barth, Balthasar, and others speak anew through leading theologians of our own day in these masterfully orchestrated essays.
