principles first and that's what this book does. Once you learn the basics you can embellish the code until your heart's content. Everybody else does you can too. The coding examples contained in this book are in their simplest form. You will eventually realize at some point that you can add a few things here and there to the code that would greatly enhance a given routine. The most important thing to be gained from this book is confidence. Confidence that when you see a more advanced book you won't be scared away as you'll have some idea of what they are talking about. A book like this is how I got started. In the 1970's I went looking for computer books. There weren't many then but I found one on the original BASIC language. The cover said it all. Written for 6th Graders. I thought if a twelve year old could learn it why couldn't I. It was a fantastic book and served me well. I hope this book will do the same for you.

Author Dick Hart is a retired Schlumberger Well Services employee having worked in the Engineering Dept for 25 years. My first work experience started out in the United States Air Force maintaining aircraft Radio and Radar Navigation electronics for the Strategic Air Command SAC. From there I worked at Texas Instruments Raytheon Co. Welex a division of Halliburton and Lockheed Electronics. My work for Lockheed Electronics was at the Johnson Spacecraft Center known then as The Manned Spacecraft Center. Work there involved the design of payloads for small sounding rockets to measure the Ozone in the upper atmosphere. After Lockheed I went to Schlumberger Well Services where work involved the prototyping of down hole oil well logging tools. In 1986 Schlumberger moved me to an engineering group that performed Characterization tests on new Integrated Circuits. This is where I got involved with computer programming. In retirement my daughter asked me to teach her about Visual Basic and this notebook is the result. It is hoped that others might benefit from the experience gained in creating this notebook.
