The Right Kind Of Revolution Modernization Development And Us Foreign Policy From The Cold War To The Present By Michael E Latham 2010 12 1:

Cold War Germany, the Third World, and the Global Humanitarian Regime Young-sun Hong, 2015-03-05 This book examines competition and collaboration among Western powers the socialist bloc and the Third World for control over humanitarian aid programs during the Cold War Young sun Hong s analysis reevaluates the established parameters of German history On the one hand global humanitarian efforts functioned as an arena for a three way political power struggle On the other they gave rise to transnational spaces that allowed for multidimensional social and cultural encounters Hong paints an unexpected view of the global humanitarian regime Algerian insurgents flown to East Germany for medical care barefoot Chinese doctors in Tanzania and West and East German doctors working together in the Congo She also provides a rich analysis of the experiences of African trainees and Asian nurses in the two Germanys This book brings an urgently needed historical perspective to contemporary debates on global governance which largely concern humanitarianism global health south north relationships and global migration

Laboratory of Socialist Development Artemy M. Kalinovsky, 2018-05-15 Artemy Kalinovsky s Laboratory of Socialist Development investigates the Soviet effort to make promises of decolonization a reality by looking at the politics and practices of economic development in central Asia between World War II and the collapse of the Soviet Union Focusing on the Tajik Soviet Socialist Republic Kalinovsky places the Soviet development of central Asia in a global context Connecting high politics and intellectual debates with the life histories and experiences of peasants workers scholars and engineers Laboratory of Socialist Development shows how these men and women negotiated Soviet economic and cultural projects in the decades following Stalin s death Kalinovsky s book investigates how people experienced new cities the transformation of rural life and the building of the world s tallest dam Kalinovsky connects these local and individual moments to the broader context of the Cold War shedding new light on how paradigms of development change over time Throughout the book he offers comparisons with experiences in countries such as India Iran and Afghanistan and considers the role of intermediaries who went to those countries as part of the Soviet effort to spread its vision of modernity to the postcolonial world Laboratory of Socialist Development offers a new way to think about the post war Soviet Union the relationship between Moscow and its internal periphery and the interaction between Cold War politics and domestic development Kalinovsky s innovative research pushes readers to consider the similarities between socialist development and its more familiar capitalist version

The Right Kind of Revolution Michael E. Latham, 2011 A critical history of modernization theory in American foreign policy *US Public Diplomacy Strategies in Latin America During the Sixties* Francisco Rodríguez-Jiménez, Lorenzo Delgado Gómez-Escalonilla, Benedetta Calandra, 2024-01-29 This book seeks to address US public diplomacy strategies in Latin America of particular importance during the 1960s when the leadership of the United States had been questioned after the Cuban Revolution The implicit

mandate was No more Cubas so that what happened in the Caribbean country would not spread to other countries The actions of the United States toward its southern neighbors in the first half of the twentieth century are quite well known In contrast Latin American scenarios of the Cultural Cold War have remained relatively less well known The contributors and editors of this volume examine various facets and means of action used by the US machinery of persuasion with the aim of disseminating the virtues of its socioeconomic and political model including both public and private efforts and the significance of nonstate actors Subjects examined include the impact of the theory of modernization anti Americanism the deployment of public diplomacy in the region the activities of the Congress for Cultural Freedom and the Rockefeller Foundation and the influence of these efforts on sporting artistic and musical events This volume will be of value to students and scholars alike interested in Latin American history and history of the Americas

India and the Cold War Manu Bhagavan, 2019-08-13 This collection of essays inverts the way we see the Cold War by looking at the conflict from the perspective of the so called developing world rather than of the superpowers through the birth and first decades of India's life as a postcolonial nation Contributors draw on a wide array of new material from recently opened archival sources to literature and film and meld approaches from diplomatic history to development studies to explain the choices India made and to frame decisions by its policy makers Together the essays demonstrate how India became a powerful symbol of decolonization and an advocate of non alignment disarmament and global governance as it stood between the United States and the Soviet Union actively fostering dialogue and attempting to forge friendships without entering into formal alliances Sweeping in its scope yet nuanced in its analysis this is the authoritative account of India and the Cold War Contributors Priya Chacko Anton Harder Syed Akbar Hyder Raminder Kaur Rohan Mukherjee Swapna Kona Nayudu Pallavi Raghavan Srinath Raghavan Rahul Sagar and Waheguru Pal Singh Sidhu

Humanitarianism, empire and transnationalism, 1760-1995 Joy Damousi, Trevor Burnard, Alan Lester, 2022-03-08 This is the first book to examine the shifting relationship between humanitarianism and the expansion consolidation and postcolonial transformation of the Anglophone world across three centuries from the antislavery campaign of the late eighteenth century to the role of NGOs balancing humanitarianism and human rights in the late twentieth century Contributors explore the trade offs between humane concern and the altered context of colonial and postcolonial realpolitik They also showcase an array of methodologies and sources with which to explore the relationship between humanitarianism and colonialism These range from the biography of material objects to interviews as well as more conventional archival enquiry They also include work with and for Indigenous people whose family histories have been defined in large part by humanitarian interventions

Saving the World? Agnieszka Sobocinska, 2021-06-24 From the 1950s tens of thousands of well meaning Westerners left their homes to volunteer in distant corners of the globe Aflame with optimism they set out to save the world but their actions were invariably intertwined with decolonization globalization and the Cold War Closely exploring British American and Australian programs Agnieszka

Sobocinska situates Western volunteers at the heart of the humanitarian development complex. This nexus of governments, NGOs, private corporations, and public opinion encouraged continuous and accelerating intervention in the Global South from the 1950s. Volunteers attracted a great deal of support in their home countries. But critics across the Global South protested that volunteers put an attractive face on neocolonial power and extended the logic of intervention embedded in the global system of international development. *Saving the World* brings together a wide range of sources to construct a rich narrative of the meeting between Global North and Global South.

Afghan Crucible Elisabeth Leake, 2022. This book offers a new global history of the Soviet invasion of Afghanistan, exploring the conflict both within and beyond the framework of the Cold War and focusing on many of the different groups involved in and impacted by the war of the 1980s.

Modernization as Ideology Michael E. Latham, 2000. Providing new insight on the intellectual and cultural dimensions of the Cold War, Michael Latham reveals how social science theory helped shape American foreign policy during the Kennedy administration. He shows how in the midst of America's protracted

Mandarins of the Future Nils Gilman, 2007-02. By connecting modernization theory to the welfare state liberalism programs of the New Deal order, Gilman not only provides a new intellectual context for America's Third World during the Cold War but connects the optimism of the Great Society to the notion that American power and good intentions could stop the postcolonial world from embracing communism.

Faces of Power Seyom Brown, 2015-02-17. Seyom Brown's authoritative account of U.S. foreign policy from the end of the Second World War to the present challenges common assumptions about American presidents and their struggle with power and purpose. Brown shows Truman to be more anguished than he publicly revealed about the use of the atomic bomb; Eisenhower and George W. Bush to be more immersed in the details of policy formulation and implementation than generally believed; Reagan to be more invested in changing his worldview while in office than any previous president; and Obama to have modeled his military exit from Iraq and Afghanistan more closely to Nixon and Kissinger's exit strategy from Vietnam than he would like to admit. Brown's analyses of Obama's policies for countering terrorist threats at home and abroad, dealing with unprecedented upheavals in the Middle East, preventing the proliferation of nuclear weapons, and containing new territorial expansion by China and Russia reinforce the book's constancy and change theme, which shows that serving the interests of the most powerful country in the world transforms the Oval Office's occupant more than its occupant can transform the world.

Praise for previous editions: Systematic and informative, Brown has a gift for clear analysis that makes his book a useful contribution to the Cold War literature. *The Journal of American History*. Comprehensive and clear, thorough without ever becoming dull, providing detailed analysis of decisions while never neglecting the environment within which they are made. *International Affairs*. An excellent reference for those interested in United States foreign policy. Well written and well researched, it is appropriate for use in both undergraduate and graduate courses. *International Journal*. An analysis with difference, an important difference. Seyom Brown discusses United States policy from the perspective of how decision makers in the United

States viewed their adversaries and the alternatives as those decision makers saw them Well worth the effort of a careful reading American Political Science Review **Revolution and World Politics** Fred Halliday,1999-08-23 The relation of revolutions to international relations is central to modern history Revolutions have as much as war or nationalism shaped the development of world politics Equally revolutions have been in cause ideology and consequence international events By putting the international politics of revolution centre stage Fred Halliday s book makes a major contribution to the understanding of both revolution and world politics *The Scientific-Technological Revolution and Soviet Foreign Policy* Erik P. Hoffmann,Robbin F. Laird,2016-06-23 The Scientific Technological Revolution and Soviet Foreign Policy explains the effects of the worldwide scientific technological revolution STR on Soviet foreign policy under the collective leadership of Leonid Brezhnev Organized into five chapters this book carefully examines Soviet views of the relationship of STR with political economic and military dimensions of peaceful coexistence and detente This text also evaluates the impact of scientific discoveries technological innovations foreign economic relations strategic arms development and instability in Third World countries Some of the functions performed by Soviet perspectives on scientific technical change and international politics are also reported *Learning In U.s. And Soviet Foreign Policy* National Research Council (U.S.). Committee on International Conflict and Cooperation,1991-07-03 Interest in the phenomenon of learning has been growing driven in part by the advent of Gorbachev and by prospects for ending the Cold War In this book scholars explore the theoretical and practical implications of the evolution of US and Soviet leaders beliefs in the past 45 years **Public Opinion, American Foreign Policy and the Origins of the Cold War** Michael Leigh,1974 [The Other Side of the Table](#) Michael Mandelbaum,1990 From the John Holmes Library collection *Revolution and War* Stephen M. Walt,2013-08-09 Revolution within a state almost invariably leads to intense security competition between states and often to war In *Revolution and War* Stephen M Walt explains why this is so and suggests how the risk of conflicts brought on by domestic upheaval might be reduced in the future In doing so he explores one of the basic questions of international relations What are the connections between domestic politics and foreign policy Walt begins by exposing the flaws in existing theories about the relationship between revolution and war Drawing on the theoretical literature about revolution and the realist perspective on international politics he argues that revolutions cause wars by altering the balance of threats between a revolutionary state and its rivals Each state sees the other as both a looming danger and a vulnerable adversary making war seem both necessary and attractive Walt traces the dynamics of this argument through detailed studies of the French Russian and Iranian revolutions and through briefer treatment of the American Mexican Turkish and Chinese cases He also considers the experience of the Soviet Union whose revolutionary transformation led to conflict within the former Soviet empire but not with the outside world An important refinement of realist approaches to international politics this book unites the study of revolution with scholarship on the causes of war **The Sword and the Dollar** Michael Parenti,2025-10-16 To many the

foreign policy directives of the United States seem bewildering and sometimes inharmonious with its domestic political values Why does the U S seem to support foreign dictators Why has it invested so many of its resources in stockpiling nuclear arms Why doesn t the U S act as a force for peace throughout the world In this probing provocative analysis Michael Parenti reveals the hidden agenda of American foreign policy decisions No matter which party is in power the U S acts to protect the interests of large American based corporations in order to maintain valuable overseas markets and cheap foreign labor In lucid detail Michael Parenti examines just how these very private interests determine America s public policy goals from the impoverishment of developing nations to the building of an intimidating nuclear arsenal What he discovers will surely be controversial and suggests that the greatest threats to democracy both here and abroad may emanate from within the United States itself

For Right and Might Michael Brenes, City University of New York. History, 2014 As the constitutive elements of the defense economy were threatened with defense cuts and a thaw in the Cold War after the 1960s they increasingly gravitated toward political figures and officials who promised continued defense spending After the economic crisis of the 1970s residents of such Cold War communities saw job losses to inflation and stagnation but also to a drawdown in the Vietnam War and the era of detente By the end of the Cold War communities reliant upon the Department of Defense for employment supported conservative proposals for the reduction of federal taxes and government influence in regulating local economies while also campaigning for additional federal defense contracts to keep local economies afloat By exploring the realignment of American politics through the context of global events and their impact on local politics this dissertation considers how the personal livelihoods and political prejudices of Americans shaped both national politics and foreign affairs

Containment and Revolution David Horowitz, 1967

~~The Right Kind Of Revolution Modernization Development And Us Foreign Policy From The Cold War To The Present By Michael E Latham 2010 12 1~~
Introduction

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In todays fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free The Right Kind Of Revolution Modernization Development And Us Foreign Policy From The Cold War To The Present By Michael E Latham 2010 12 1 PDF books and manuals is the internets largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free The Right Kind Of Revolution Modernization Development And Us Foreign Policy From The Cold War To The Present By Michael E Latham 2010 12 1 PDF books and manuals is convenient and cost-effective, it is vital to respect

The Right Kind Of Revolution Modernization Development And Us Foreign Policy From The Cold War To The
