The Scramble For Africa White Man Conquest Of:

The scramble for Africa Thomas Pakenham, *The Scramble for Africa*, 1992 **Scramble for Africa: White Man's Conquest of the Dark Continent from 1876 to 1912** Thomas Pakenham, 1991 Germany's Genocide of the Herero Jeremy Sarkin, Jeremy Sarkin-Hughes, 2011 In 1904 the indigenous Herero people of German South West Africa now Namibia rebelled against their German occupiers In the following four years the German army retaliated killing between 60 000 and 100 000 Herero people one of the worst atrocities ever The history of the Herero genocide remains a key issue for many around the world partly because the German policy not to pay reparations for the Namibian genocide contrasts with its long standing Holocaust reparations policy The Herero case bears not only on transitional justice issues throughout Africa but also on legal issues elsewhere in the world where reparations for colonial injustices have been called for The book argues that the Herero genocide was linked to Germany's late entry into the colonial race which led it frenetically and ruthlessly to acquire multiple colonies all over the world within a very short period using any means available Dramatic Global Population Growth Embraces the Growing Older Population Edward A McKinney, 2018-11-16 The world is witnessing a dramatic demographic population growth explosion across all age groups that had its beginning around the early 1800s when the first billion people in population was recorded Most importantly has been an increasing growth in the older population Does population aging matter in the twenty first century Yes it matters because as research has pointed out the increasing older population globally will have a significant impact on all essential societal systems the family pensions and retirement and financial institutions as well as medical health and social systems This growth explosion or phenomenon will affect all continents countries and regions regardless of economic political and military power Causative factors for this global growth in population have come about primarily as a result of medical advances innovations agricultural development and the industrial revolution especially the development of railways seaways and highways A major emphasis of the book focuses on several very important factors the growing older population as aforementioned especially its impact on all of essential societal systems and the subject of ageism Ageism becomes extremely important considering that the growing older population the silver tsunami represents the new majority This new majority will no longer be ignored Gerontologists for years have attempted to call attention to the fact Expectations for old people are based on negative age stereotypes Members of American society generally expect and even encourage the aged to be asexual intellectually rigid unproductive ineffective and disengaged Seniors are supposed to stay out of the way sit in their rocking chairs and enjoy the golden years They are expected to be inactive invisible but happy Levin J and Levin W Ageism Prejudice and Discrimination Against the Elderly California Wadsworth Publishing 1941 pp 97 98 Speaking of being ignored why aren't more members of the older population involved at the decision making tables in shaping a society for all ages After all they would bring years of experiences skills knowledge and values for creating a society for all ages in the twenty first century with justice and human rights for all

Currently there is a global movement with a goal of the eradication of ageism in all of its forms. Some will recall from several decades ago the Grey Panther Movement in America with a similar mission of the eradication of all injustices at the time being experienced by the older population. The current movement says 'The time is now, not later.' One major social injustice being experienced by the growing old population globally is the lack of income security in old age, including the lack of access to other essential services such as medical health and social care, including long-term care. More than 50 percent, 51 percent of older persons globally do not have basic income security or a social pension in retirement. A more alarming statistic is that in Sub-Saharan Africa, forty-seven countries, 82.5 percent of retirees do not have a social pension. Yes, for the older population, the time is now for correcting the aforementioned injustices. Maybe what is needed is a human seismic force comprising the new majority to initiate a social movement with a goal of the eradication of all forms of ageism and ensuring that the growing older population will live in dignity and respect in later life, including social protection pensions.

Encyclopedia of the Age of Imperialism, 1800-1914 Carl C. Hodge, 2007-11-30. In 1800, Europeans governed about one-third of the world's land surface. By the start of World War I in 1914, Europeans had imposed some form of political or economic ascendancy on over 80 percent of the globe. The basic structure of global and European politics in the twentieth century was fashioned in the previous century out of the clash of competing imperial interests and the effects, both beneficial and harmful, of the imperial powers on the societies they dominated. This encyclopedia offers current, detailed information on the major world powers and their global empires, as well as on the people, events, ideas, and movements, both European and non-European, that shaped the Age of Imperialism.
